Salt in the Rainbow Jonathan Muhiudeen 2014-10-18 Jonathan, a self-taught sailor from Malaysia, who left banking to sail around the world. The journey took 4 years, as Captain, Engineer and crew. This story is more than sailing, it covers his adventures from storms to shipwrecked to romance in short stores as he heads West from Asia into the setting sun. He is one of the few Asian circumnavigators that have written a book on what it's like to come from a nonwestern country as he sails into foreign ports. In today's world of 24/7 communication and electronic maps, Jonathan experiences of foreign ports, yachties from different cultures, engineering breakdowns not to mention a 'perfect storm' all via radio and phone boxes seems like a historical adventure, but it was only 25 years ago.

Tommy Gun Winter Nathan Gorenstein 2015-04-07 This is the true tale of two brothers, sons of a successful Jewish contractor, who along with an MIT graduate and a minister's daughter once competed for headlines with John Dillinger, Pretty Boy Floyd and Bonnie and Clyde. The gang was led by the angry, violent, yet often charismatic Murton Millen, a small-time hoodlum and aspiring race-car driver. With his younger brother, Irv, and later joined by neighborhood buddy and MIT graduate Abe Faber, Murt launched a career of increasingly ambitious robberies. But it was only after his sudden marriage to the beautiful eighteen-year-old Norma Brighton that the gang escalated to murder. Their crime wave climaxed at a Needham, Massachusetts, bank on February 2, 1934, when Murt cut down two local police officers - Francis Haddock and Forbes McLeod - with a Thompson submachine gun stolen from state police. The killings, the dogged investigation by two clever detectives, and the record-setting trial with seventeen psychiatrists were national news. In Depression-era America this Boston saga of sex, ethnicity, and bloodshed made the trio and their "red-headed gun moll" infamous. Gorenstein's account explores the Millen, Faber, and Brighton families and introduces us to cops, psychiatrists, newspaper men and women, and ordinary citizens caught up in the extraordinary Tommy Gun Winter of 1934.

Easy Company Soldier Don Malarkey 2008-05-13 Elite paratrooper Sgt. Don Malarkey takes us not only into the World War II battles fought from Normandy to Germany, but into the heart and mind of a soldier who lost his best friend during the nightmarish engagement at Bastogne. Drafted in 1942, Malarkey arrived at Camp Toccoa in Georgia and was one of the one in six soldiers who earned their Eagle wings. He went to England in 1943 to provide cover on the ground for the largest amphibious military attack in history: Operation Overlord. In the darkness of D-day morning, Malarkey parachuted into France and within days was awarded a Bronze Star for his heroism in battle. He fought for twenty-three days in Normandy, nearly eighty in Holland, thirty-nine in Bastogne, and nearly thirty more in and near Haugenau, France, and the Ruhr pocket in Germany. Easy Company Soldier is his dramatic tale of those bloody days fighting his way from the shores of France to the heartland of Germany, and the epic story of how an adventurous kid from Oregon became a leader of men.

Special Duties Pilot John M Billings 2021-08-31 If there was ever a man who was born to fly, it is John M. Billings. He took his first plane ride in 1926, began taking piloting lessons in 1938, and joined the US Army Air Force in July 1942. After training he was assigned to fly Consolidated B-24 Liberator long-range bombers. He joined the 825th Bombardment Squadron of the 484th Bombardment Group. After flying fifteen daylight strategic bombing missions, Billings was selected for assignment to the 885th Bombardment Squadron (Heavy) (Special). As its designation suggests, the 885th was no regular bombing unit. The 885th specialized in flying top secret, low-altitude missions at night in support of the clandestine operations of the OSS and the Special Operations Executive. The unit's covert missions included parachuting OSS and SOE agents and supplies deep inside German territory. The most eventful and dangerous of Billings' thirty-nine secret missions with the 885th was his assignment in February 1945 to clandestinely insert a three-man OSS team, code-named Greenup, into Austria. The drop zone selected for the Greenup insertion was located on a glacier in a valley surrounded by mountains in the middle of the snow-covered Alps. Billings and his crew finally found the weather in the Alps clear enough to spot the drop zone, slip their unwieldy B-24 between the mountain peaks and descend to an altitude just a few hundred feet above the moonlit snow. On Billings' signal, the OSS agents parachuted right on target. The insertion of this OSS team was the inspiration for the feature film *Inglorious Bastards*. However, Brad Pitt's vengeful character was far removed from the leader of the Greenup team, Fred Mayer, who achieved success by infiltrating enemy ranks to gain vital intelligence. After the war, John Billings flew with Trans World Airlines and Eastern Airlines. He also flew more than 300 'Angel Flight' airlift missions which involve the specialized aerial transportation of critically ill medical patients. This is one man's story of a remarkable lifetime of flying, both in peace and in war.

Mathematics in Victorian Britain photographer and broadcaster Foreword by Dr Adam Hart-Davis 2011-09-29 During the Victorian era, industrial and economic growth led to a phenomenal rise in productivity and invention. That spirit of creativity and ingenuity was reflected in the massive expansion in scope and complexity of many scientific disciplines during this time, with subjects evolving rapidly and the creation of many new disciplines. The subject of mathematics was no exception and many of the advances made by mathematicians during the Victorian period are still familiar today; matrices, vectors, Boolean algebra, histograms, and standard deviation were just some of the innovations pioneered by these mathematicians. This book constitutes perhaps the first general survey of the mathematics of the Victorian period. It assembles in a single source research on the history of Victorian mathematics that would otherwise be out of the reach of the general reader. It charts the growth and institutional development of

mathematics as a profession through the course of the 19th century in England, Scotland, Ireland, and across the British Empire. It then focuses on developments in specific mathematical areas, with chapters ranging from developments in pure mathematical topics (such as geometry, algebra, and logic) to Victorian work in the applied side of the subject (including statistics, calculating machines, and astronomy). Along the way, we encounter a host of mathematical scholars, some very well known (such as Charles Babbage, James Clerk Maxwell, Florence Nightingale, and Lewis Carroll), others largely forgotten, but who all contributed to the development of Victorian mathematics.

Hoe de Mannen van Easy Company een Band of Brothers Werden Chris Langlois 2019-11 Easy Company van het 506de Parachute Infanterie Regiment, 101ste Luchtlandingsdivisie was een samenhangende eenheid die zich eervol onderscheidde tijdens de Tweede Wereldoorlog. In 1992 werden ze voor het eerst bij het publiek geïntroduceerd in het boek "Band of Brothers" van historicus Stephen Ambrose, maar pas op latere leeftijd werden ze internationaal beroemd door de HBO mini-serie met dezelfde naam, geproduceerd door Tom Hanks en Steven Spielberg. Dit boek zal jong en oud onderdompelen in de verhalen van gewone mannen die moedig en vrijwillig dienst namen bij de elite parachutisten. Chris Langlois, kleinzoon van Easy's hospik Eugene Roe, werkte samen met artieste Anneke Helleman aan dit geïllustreerde verhaal over de mannen van Easy Company. Onzichtbare man Ralph Ellison 2017-01-10 Onzichtbare man is het verhaal van een jonge, hoogopgeleide zwarte man, die geen kans krijgt om te slagen in een gesegregeerde maatschappij die weigert hem als een menselijk wezen te zien. Het verhaal volgt de fysieke en psychologische reis van de naamloze hoofdpersoon tegen de achtergrond van New York in de eerste helft van de twintigste eeuw. Ellison weet als geen ander het brute naast het burleske en het komische naast het tragische te plaatsen in een roman die nu, 65 jaar na eerste verschijning, relevanter en urgenter is dan ooit. Onzichtbare man wordt alom geprezen als een van de beste Engelstalige romans van de twintigste eeuw. Onder anderen James Baldwin en Ta-Nehisi Coates lieten zich inspireren door de creatieve manier waarop Ellison een beeld schetst van een jonge zwarte man in het Amerika van vóór de burgerrechtenbeweging. Het boek stond model voor de memoires van Barack Obama.

A Southern Spy in Northern Virginia Charles V. Mauro 2009 "Confederate Brigadier General J.E.B. Stuart entrusted a secret album to Laura Ratcliffe, a young girl in Fairfax County, 'as a token of his high appreciation of her patriotism, admiration of her virtues, and a pledge of his lasting esteem.' A devoted Southerner, Laura provided a safe haven for Rebel forces, along with intelligence gathered from passing Union soldiers. Radcliffe's book contains four poems and forty undated signatures: twenty-six of Confederate officers and soldiers and fourteen of loyal Confederate civilians. In A Southern Spy in Northern Virginia, Charles V. Mauro uncovers the mystery behind this album, identifying who the soldiers were and when they could have signed its pages. The result is a fascinating look at the covert lives and relationships of civilians and soldiers during the war, kept hidden until now"--Page 4 of cover.

Faces of the Confederacy Ronald S. Coddington 2009-01-19 "Extensive research, fascinating characters. . . The author has done an admirable job of literally placing a face on the ordinary Confederate soldier." —The Journal of Southern History "The history of the Civil War is the stories of its soldiers," writes Ronald S. Coddington in the preface to Faces of the Confederacy. This book tells the stories of seventy-seven Southern soldiers—young farm boys, wealthy plantation owners, intellectual elites, uneducated poor—who posed for photographic portraits, cartes de visite, to leave with family, friends, and sweethearts before going off to war. Coddington, a passionate collector of Civil War-era photography, conducted a monumental search for these previously unpublished portrait cards, then unearthed the personal stories of their subjects, putting a human face on a war rife with inhuman atrocities. The Civil War took the lives of twenty-two of every hundred men who served. Coddington follows the exhausted survivors as they return home to occupied cities and towns, ravaged farmlands, a destabilized economy, and a social order in the midst of upheaval. This book is a haunting and moving tribute to those brave men. Like its companion volume, Faces of the Civil War: An Album of Union Soldiers and Their Stories, this book offers readers a unique perspective on the war and contributes to a better understanding of the role of the common soldier. "With his meticulous research and a journalist's eye for good stories, Ron Coddington has brought new life to Civil War photographic portraits of obscure and long-forgotten Confederates whose wartime experiences might otherwise have been lost to history." —Bob Zeller, cofounder and president of the nonprofit Center for Civil War Photography

Band of Brothers Stephen E Ambrose 2011-10-09 Band of Brothers vertelt het persoonlijke verhaal van de soldaten van de bijzondere eenheid – Easy Company – die in de Tweede Wereldoorlog altijd en overal de gevaarlijkste opdrachten kreeg toebedeeld. Het authentieke verhaal is gebaseerd op urenlange interviews met de weinige overlevenden van Easy Company, aangevuld met brieven en dagboeknotities van de soldaten zelf. Stephen E. Ambrose luisterde, noteerde en vergeleek alle verhalen met elkaar en schilderde uiteindelijk een haarscherp en aangrijpend beeld van het leven en de lotgevallen van deze Amerikaanse helden, in hun eigen woorden.

Spies In The Sky Taylor Downing 2011-09-15 SPIES IN THE SKY is the thrilling, little-known story of the partner organisation to the famous code-breaking centre at Bletchley Park. It is the story of the daring reconnaissance pilots who took aerial photographs over Occupied Europe during the most dangerous days of the Second World War, and of the photo interpreters who invented a completely new science to analyse those pictures. They were inventive and ingenious; they pioneered the development of 3D photography and their work provided vital intelligence throughout the war. With a whole host of colourful characters at its heart, from the legendary pilot Adrian 'Warby' Warburton, who went missing while on a mission, to photo interpreters Glyn Daniel, later a famous television personality, and Winston Churchill's daughter, Sarah, SPIES IN THE SKY is compelling reading and the first full account of the story of aerial photography and the intelligence gleaned from it in nearly fifty years.

A Band of Brothers Daniel D. Hartzler 2005 For some in the Baltimore and Frederick militia companies the hostilities began when they went to Harpers Ferry to put down the John Brown insurrection. There were some Maryland volunteers and more than 500 enlisted men known as the Baltimore Secessionists in Charleston Harbor when the first blow was struck. Men of Maryland descent were scattered throughout the Confederacy and scarcely was there a company that did not contain Maryland blood. These Maryland brothers were linked in their willingness to sacrifice all in the cause for liberty, as they believed it to be. There was not a historic family that was not represented in the Maryland Line. Included in this work are well-known Marylanders like Richard Snowden Andrews, Bradley T. Johnson, Harry Gilmore, Arnold Elzey, George H. Steuart Jr., Williams Worthington Goldsborough, and James R. Herbert, but their "unknown" brethren are remembered here as well. This volume is a supplement to Marylanders in the Confederacy as seen through the eyes of the camera. For the complete story of Maryland's true sons who served in the Confederacy, these two volumes should be referred to simultaneously. Every Maryland boy had many thrilling tales from adventures in running the blockade to achievements in battle. This volume attempts to shed light on some of these exciting tales by using brief biographies and vintage photographs.

The Coon-Sanders Nighthawks Fred W. Edmiston 2009-04-17 Carleton A. Coon, Sr., and Hoe L. Sanders formed the Coon-Sanders Orchestra in 1919 in Kansas City, Missouri. Three years later, under the name "Nighthawks," the band began broadcasting experimental, highly-popular midnight radio programs over Kansas City's WDAF. Their music was played all over the world, and the band remained one of America's top bands until Coon's death in 1932. Here is the complete history of the Coon-Sanders Orchestra, the band whose saucy, and bustling music and carefree and extravagant musicians symbolized the era between World War I and the Great Depression.

1232 km Vinod Kapri 2021-05-28 The nationwide lockdown in 2020 to curb the spread of Covid-19 left millions of migrant labourers without jobs, food and shelter. Desperate and helpless, most took to the road, embarking on the long, often fatal, journey home. Ritesh, Ashish, Ram Babu, Sonu, Krishna, Sandeep and Mukesh-migrants from Bihar undertook a similar journey on their bicycles that lasted for seven days and seven nights. Their harrowing trip from Ghaziabad, Uttar Pradesh, to their hometown of Saharsa as they braved police lathis and insults, and battled hunger, exhaustion and fear, was documented by National Award-winning filmmaker Vinod Kapri. 1232 km is a story of the extraordinary courage of seven men in the face of tremendous odds.

Scherpschutter van Band of Brothers Marcus Brotherton 2012-04-02 Darrell Powers, bij zijn soldatenbroeders beter bekend als Shifty, groeide op in Virginia. Zijn grootste droom was de allerbeste schutter ter wereld te worden en hij en zijn vader oefenden jarenlang in 'blind schieten': het 'voelen' van de omgeving en daarnaar handelen. Ze konden geen van beiden weten dat dat bijna bovennatuurlijke vermogen later Shifty's eigen leven en dat van zijn vrienden zou redden. Eenmaal soldaat en met Easy Company op weg naar de slagvelden van de Tweede Wereldoorlog, realiseert Shifty zich dat hij al zijn vaardigheden nodig zal hebben om deze bloedige strijd te overleven. Marcherend over de velden van Frankrijk en Duitsland, gedreven door de wil om Europa te redden van het kwaad, dringt ondanks alle angst en pijn tot hem door dat hij met zijn Band of Brothers een diepe band smeedt die tot hun dood stand zal houden.
