*Text-Dependent Questions, Grades 6-12* Douglas Fisher 2014-09-02 Fisher & Frey's answer to close and critical reading Learn the best ways to use text-dependent questions as scaffolds during close reading and the big understandings they yield. But that's just for starters. Fisher and Frey also include illustrative video, texts and questions, cross-curricular examples, and an online facilitator's guide—making the two volumes of TDQ a potent professional development tool across all of K-12. The genius of TDQ is the way Fisher and Frey break down the process into four cognitive pathways: What does the text say? How does the text work? What does the text mean? What does the text inspire you to do?

**Bilingual Education** Nancy Lemberger 2013-12-16 This book grew out of the joys and challenges the author experienced as a Spanish/English bilingual teacher of culturally and linguistically diverse students. It tells what it is like to be a bilingual teacher. As a result, it helps other teachers and prospective teachers understand the complex nature of bilingual teaching, shares some successful teaching strategies that other teachers have used, and encourages teachers to find their own solutions despite limited support. The book is structured in three parts. The introduction explains how the book evolved, defines its relation to other qualitative research, and offers suggestions for how to use the book. The second part consists of eight bilingual teachers' stories that provide a glimpse of them as people, their schools and programs, their successes and struggles, and their solutions and coping mechanisms within their contexts. It concludes with a discussion chapter that looks at the teachers' collective strengths and struggles comparatively, connecting these to broader issues. The final section presents bilingual education resources -- useful information for practitioners. This includes foundation texts on the theories and practices of bilingual education, demographic information, a glossary of bilingual education terms, listings of curricula, tests, and literature mentioned by the teachers, and professional network sources.

**History of Multicultural Education: Teachers and teacher education** Carl A. Grant 2008 This benchmark 6-volume set presents a comprehensive body of research on the history of multicultural education in the U.S. These volumes bring together archival documents spanning the last 30-40 years to analyze the development, implementation, and interpretation of multicultural education.

**A Guide to College Programs in Teacher Preparation** National Council for Accreditation of Teacher Education 1999-06-04 This valuable resource is the definitive guide to nationally accredited institutions that

prepare teachers. Students embarking on teaching careers need guidance to select the college or university programs that will best prepare them for the complex demands of today's classrooms and students. As the profession continues to change dramatically, aspiring teachers must meet higher standards from school districts, state licensing boards, and professional associations. Many of these standards begin with the National Council for Accreditation of Teacher Education (NCATE). Only half of the country's teacher preparation programs have met NCATE's rigorous standards. This guide provides vital information about each of the accredited colleges and universities--from tuition, size, and length of program to descriptions of noteworthy program features, including clinical experience opportunities. In addition to providing detailed information on the 500+ accredited programs across the nation, this guide lists the accredited programs that meet especially high standards set by leaders in each teaching field. The guide's resource materials make it easy for the student, guidance counselor, and career advisor to gain up-to-date information about becoming a teacher today. A Guide to College Programs in Teacher Preparation is updated every two years.

**Teacher Education Programs in the United States** 2004 Teacher Education Programs in the United States is the only publication to offer, in one place, comprehensive information on the teacher education programs available in U.S. colleges and universities. Information includes accreditation of the programs, and the degrees and certification offered for students who complete the programs.
