Jesus Among Secular Gods Ravi Zacharias 2017-01-03 Ravi Zacharias and Vince Vitale defend the absolute claims of Christ against modern belief in the "secular gods" of atheism, scientism, relativism, and more. The rise of these secular gods presents the most serious challenge to the absolute claims of Christ since the founding of Christianity itself. The Christian worldview has not only been devalued and dismissed by modern culture, but its believers are openly ridiculed as irrelevant. In Jesus Among Secular Gods, Ravi Zacharias and Vince Vitale challenge the popular "isms" of the day, skillfully pointing out the fallacies in their claims and presenting compelling evidence for revealed absolute truth as found in Jesus. This book is fresh, insightful, and important, and faces head on today's most urgent challenges to Christian faith. It will help seekers to explore the claims of Christ and will provide Christians with the knowledge to articulate why they believe that Jesus stands tall above all other gods.

The applications of ICT in language learning and the use of computers in SLA research are discussed in the next two chapters. The final chapter introduces and discusses the scope and concepts of computational linguistics and corpus linguistics and their applications in lexicography, translation and foreign language teaching. It is also devoted to looking at ways in which computers can contribute to our understanding of what language is and what implications this knowledge can bring to linguistic practice and use.

In Search of Deeper Learning Jal Mehta 2019-04-22 Winner of the Grawemeyer Award in Education "The best book on high school dynamics I have ever read." –Jay Mathews, Washington Post "A hopeful, easy-to-read narrative on what the best teachers do and what deep, engaging learning looks like for students. Grab this text if you're looking for a celebration of what's possible in American schools." –Edutopia "A must-read for anyone interested in the fate of the American high school." –Linda Darling-Hammond, President and CEO, Learning Policy Institute What would it take to transform our high schools into places capable of supporting deep learning for students across a wide range of aptitudes and interests? To find out, Jal Mehta and Sarah Fine spent hundreds of hours observing and talking to teachers and students in and out of the classroom at thirty of the country's most innovative schools. To their dismay, they discovered that deeper learning is more often the exception than the rule. And yet they found pockets of powerful learning at almost every school, often in extracurriculars but also in a few mold-breaking academic courses. So what must schools do to achieve the integrations that support deep learning: rigor with joy, precision with play, mastery with identity and creativity? In Search of Deeper Learning takes a deep dive into the state of our schools and lays out an inspiring new vision for American education.

Mirror Images Diana Silberman-Keller 2008 This book considers education in both formal and informal settings, and looks critically at the accepted dichotomy between education and popular culture. It argues that popular culture is capable of educating and that education shares many characteristics with popular culture, and tries to overcome these dichotomous relationships while also trying to clarify the reciprocal effects between the two.

Tupac Various Contributors 2019-11-11 Tupac Shakur is not just a posthumous hip-hop icon. In the years since his September 1996 murder, he has attained a status that led some to coin him 'the Black Elvis'. More successful as a recording artist than at the active peak of his career, his posthumous albums continue to sell in massive quantities around the world. His cultural importance is reflected in a 'Tupac's not dead' myth - the first time a black performing artist has been mythologised on the level of a Presley or a James Dean. Crucial to the iconic appeal of Tupac is the mass of contradictions that define him: the macho gansta-rapper who eulogised the 'thug life'; the erudite young man who hoped for a political and spiritual awakening among his peers; the sexually insatiable star who served a prison term for sexual abuse of a young woman fan; the sensitive son of a politicised single mother, who recorded a sympathetic pain to women. A Thug Life explores all these contradictions, alongside every other aspect of Tupac's life and career. Compiling interviews, articles, reviews and essays on rap music's enduring icon, this extensively illustrated anthology is divided into five distinct sections, covering his early life, his music, film and the dark side of his life - the flirtations with gang culture, accusations of forcible sodomy and rape, his lucky escape from death after a 1994 shooting, and his accusations against former friend, the Notorious BIG, that fuelled the East-West Coast rap wars. The final section examines the murder of Tupac one September night in Las Vegas, and the conspiracy theories it fuelled. Interview transcripts are included of Death Row Records boss Suge Knight, talking of how Shakur died in his car, and Afeni Shakur, describing her legal action against the young gang member she blamed for her son's death - which was halted with the suspect's own shooting.

Disrupt This! Karen J. Head 2017-07-04 In this smart and incisive work, Karen J. Head describes her experience teaching a Massive Open Online Course (MOOC) and the attendant pressure on professors, especially those in the humanities, to embrace new technologies in the STEM era. And yet, as she argues, MOOCs are just the latest example of the near-religious faith that some universities have in the promise of technological advances. As a teacher of rhetoric, Head is well versed at sniffing out the sophistry embedded in the tech jargon increasingly rife in the academy. Disrupt This! is a broader-based critique of the promises of technological "disruption" and the impact of Silicon Valley thinking on an unsuspecting, ill-prepared, and often gullible university community grasping for relevance, while remaining in thrall to the technologists.

Jesus Above School Noah Samuel Brink 2023-01-18 All of us deeply need Jesus - not only for salvation, but in every area of our lives. This is why the gospel is good news; because there's real hope for real need. Clinging to this conviction, Jesus Above School unpacks and applies the umbrella question, "What difference does the gospel make?" within the Christian school context, even though this will likely put many of our prevailing assumptions at risk. Jesus Above School provides Christian educators with a clearer understanding of what it means to "do school" in light of a profound commitment to the radical gospel of Jesus. Tragically, many Christian educators are ill-equipped to adequately articulate and apply the implications of a biblical worldview in their thought and practice. As a result, many Christian schools struggle to set themselves apart as truly distinctive because they're not aligned with the wonderfully unique truths of God's gospel. To help, Jesus Above School offers a framework of categories and questions which guide an organized approach to becoming more gospel-centered by shaping both what is taught and the way the school goes about teaching throughout the entire ecosystem of the Christian school culture. These categories are broad enough to recalibrate philosophies and commitments while still being nimble enough to capture the myriad issues facing Christian schools in the day-to-day. "Private Christian schools play a vital role in American Christianity today. However, as Noah Brink observes in this important book, too many schools recognize Jesus in name more than they engage him in the educational process. Brink's use of orthodoxy, orthopraxy, and orthopathy offers a particularly helpful insight into worldview education to help Christian schools do just what the book says: place Jesus above

school." Ed Stetzer, Ph.D. Dean and Professor, Wheaton College "Noah Brink has issued a much-needed clarion call for all Christian schools. In this post-Covid era when many schools are experiencing enrollment growth, it is critical for all Christian educators to thoughtfully align all practices in concert with biblical truth - and we all fall short of that goal. 'What difference does the gospel make' is an ungirding theme in this excellent resource - a must read for all Christian educators for such a time as this. You will be challenged, enlightened, and encouraged." James L. Drexler, Ph.D. Dean of the Covenant College Graduate School of Education

The Hollywood Curriculum Mary M. Dalton 2010 The second revised edition of The Hollywood Curriculum analyzes over 165 films distributed throughout the United States over the last 80 years to construct a theory of curriculum in the movies that is grounded in cultural studies and critical pedagogy. The portrayal of teachers in popular movies focuses on individual effort rather than collective action, and relies on stock characters and predictable plots, precluding meaningful struggle. Conformation to these conventions ensures the ultimate outcome of the screen narratives and almost always leaves the educational institution-which represents the larger status quo-intact and dominant. To interrogate the "Hollywood curriculum" is to ask what it means as a culture to be responsive to films at both social and personal levels, and to engage these films as both entertaining and potentially transforming. "The Hollywood Curriculum is a sophisticated and thoughtful look at the portrayal of teachers in film and television in an exceptionally accessible way. Dalton draws on some of the most relevant and exciting theory to evaluate teacher films and demonstrates a masterful insight into the worlds of education and film studies. This book is a must-read for those interested in exploring the intersection of teaching, curriculum, film/television, and society, and is an outstanding contribution to the literature."-Alan S. Marcus, Associate Professor of Curriculum and Instruction, University of Connecticut; Author of Celluloid Blackboard: Teaching History with Film and Teaching History with Film: Strategies for Secondary Social Studies

Als wij schurken waren M.L. Rio 2017-10-13 'Als wij schurken waren' van M. L. Rio vertelt het verhaal van Oliver Marks. Tien jaar heeft hij in de gevangenis gezeten - voor een moord die hij wel of niet heeft gepleegd. D á t is wat detective Colborne zo graag nog van hem zou horen nu hij met pensioen gaat. Tien jaar eerder: zeven jonge, briljante en gepassioneerde studenten op een arts college, spelen en bestuderen Shakespeare 's werk. Ze zijn vol van Shakespeare, vol van zijn personages, en zetten hun rol ook buiten het toneel voort. Totdat de vaste rolverdeling volledig wordt omgegooid en het verbroken evenwicht zijn consequenties krijgt in het echte leven. Een van hen wordt dood aangetroffen, de andere zes zien zich voor de uitdaging gesteld de politie, en met name zichzelf, te overtuigen van hun onschuld.

Everything You Always Wanted to Know about Lacan Slavoj Žižek 1992 'A modernist work of art is by definition 'incomprehensible'; it functions as a shock, as the irruption of a trauma which undermines the complacency of our daily routine and resists being integrated. What postmodernism does, however, is the very opposite: it objects par excellence are products with mass appeal; the aim of the postmodernist treatment is to estrange their initial homeliness: 'you think what you see is a simple melodrama your granny would have no difficulty in following? Yet without taking into account the difference between symptom and sinthom/the structure of the Borromean knot/the fact that Woman is one of the Names-of-the-Father ... you've totally missed the point!' if there is an author whose name epitomises this interpretive pleasure of 'estranging' the most banal content, it is Alfred Hitchcock (and-useless to deny it-this book partakes unrestrainedly in this madness).' Hitchcock is placed on the analyst's couch in this extraordinary volume of case studies, as its contributors bring to bear an unrivalled enthusiasm and theoretical sweep on the entire Hitchcock oeuvre, from Rear Window to Psycho, as an exemplar of 'postmodern' defamiliarization. Starting from the premise that 'everything has meaning', the films' ostensible narrative content and formal procedures are analysed to reveal a rich proliferation of ideological and psychical mechanisms at work. But Hitchcock is here to lure the reader into 'serious' Marxist and Lacanian considerations on the construction of meaning. Timely, provocative and original, this is sure to become a landmark of Hitchcock studies. Ordinary Literature Philosophy Jernej Habjan 2020-02-20 The first extended Lacanian reading of J. L. Austin's ordinary language philosophy, this book examines how it has been received in the continental tradition by Jacques Derrida and Judith Butler, Jacques Rancière and Oswald Ducrot. This is a tradition that neglects Austin's general speech act theory on behalf of his special theory of the performative, whilst bringing a new attention to the literary and the aesthetic. The book charts each of these theoretical interactions with a Lacanian reading of the thinker through a case study. Austin, Derrida and Butler are respectively read with a Hollywood blockbuster, a Shakespearean bestseller and a globally influential May '68 poster - texts preoccupied with the problem of subjectivity in early, high and postmodernity. Hence Austin's constatives (nonperformative statements) are explored with Dead Poets Society; Derridean naming with Romeo and Juliet; and Butlerian aesthetic re-

enactment with *We Are All German Jews*. Finally, Rancière and Ducrot enable a return to Austin beyond his continental reception. Austin is valorised with a theory as attractive, and as irreducible, to the continental tradition as his own thought, namely Jacques Lacan's theory of the signifier. Drawing together some of the giants of language theory, psychoanalysis and poststructuralist thought, Habjan offers a new materialist reading of the 'ordinary' status of literary language and a vital contribution to current debates within literary studies and contemporary philosophy.

Hedon Priyanka Mookerjee 2016-04-28 When Tara Mullick meets Jay Dhillon at a stifling society wedding, she forgets, for a moment, that she's an awkward, chubby seventeen-year-old, dying to get out of her sparkly lehenga and back into the comfortable invisibility of an oversized T-shirt. And all Tara can do is carry him with her, a talisman, over half a decade spent oscillating between India and the American heartland. Laced with pop culture and a heady dose of decadence, this is the hedonistic experience of heedless millennials out in an ever-shrinking world and, within that world, the struggle to find a place or person to call home.

Screening Images of American Masculinity in the Age of Postfeminism Elizabeth Abele 2015-12-03 This collection of essays presents a sampling of film and television texts, interrogating images of U.S. masculinity. Rather than using "postfeminist" as a definition of contemporary feminism, this collection uses the term to designate the period from the late 1980s on—as a point when feminist thought gradually became more mainstream. The movies and TV series examined here have achieved a level of sustained attention, from critical acclaim, to mass appeal, to cult status. Instead of beginning with a set hypothesis on the effect of the feminist movement on images of masculinity on film and television, these chapters represent a range of responses, that demonstrate how the conversations within these texts about American masculinity are often open-ended, allowing both male characters and male viewers a wider range of options. Defining the relationship between U.S. masculinity and American feminist movements of the twentieth century is a complex undertaking. The essays collected for this volume engage prominent film and television texts that directly interrogate images of U.S. masculinity that have appeared since second-wave feminism. The contributors have chosen textual examples whose protagonists actively struggle with the conflicting messages about masculinity. These protagonists are more often works-in-progress, acknowledging the limits of their negotiations and self-actualization. These chapters also cover a wide range of genres and decades: from action and fantasy to dramas and romantic comedy, from the late 1970s to today. Taken together, the chapters of *Screening Images of American Masculinity in the Age of Postfeminism* interrogate "the possible" screened in popular movies and television series, confronting the multiple and competing visions of masculinity not after or beyond feminism but, rather, in its very wake.

The Films of Robin Williams Johnson Cheu 2019-05-30 From his first appearance as Mork from Ork on the 1970s sitcom Happy Days, Robin Williams was heralded as a singular talent. In the pre-cable television era, he was one of the few performers to successfully transition from TV to film. An Oscar-winning actor and preternaturally quick-witted comedian, Williams became a cultural icon, leaving behind a large and varied body of work when he unexpectedly took his own life in 2014. This collection of new essays brings together a range of perspectives on Williams and his oeuvre, including beloved hits like Mrs. Doubtfire, Good Morning, Vietnam, Good Will Hunting, The Fisher King, Dead Poets Society and Aladdin. Contributors explore his earlier work (Mork and Mindy, The World According to Garp) and his political and satirical films (Moscow on the Hudson, Toys). Williams's darker, less well-known fare, such as Being Human, One Hour Photo, Final Cut and Boulevard, is also covered. Williams's artistry has become woven into the fabric of our global media culture.

Clueless in Academe Gerald Graff 2008-10-01 Gerald Graff argues that our schools and colleges make the intellectual life seem more opaque, narrowly specialized, and beyond normal learning capacities than it is or needs to be. Left clueless in the academic world, many students view the life of the mind as a secret society for which only an elite few qualify. In a refreshing departure from standard diatribes against academia, Graff shows how academic unintelligibility is unwittingly reinforced not only by academic jargon and obscure writing, but by the disconnection of the curriculum and the failure to exploit the many connections between academia and popular culture. Finally, Graff offers a wealth of practical suggestions for making the culture of ideas and arguments more accessible to students, showing how students can enter the public debates that permeate their lives.

East of Anywhere: Six Unlikely Poets on a Journey to Heal Rick Thorpe 2019-04-18 Therapist George Samuel creates an experimental form of group therapy for men dealing with grief. The men: a non-stereotypical bouncer, an ex-cop turned farmer, a quirky programmer, a clever history teacher, a carefree college kid, and an antagonistic redneck, are asked to write poems and take pictures on a given topic weekly. Right before the sessions are about to begin, Dr. Samuel dies. After some persuading, his son, George Jr., takes over. George Jr. is not a therapist but an elementary teacher. The poems and dialogue are revealing, interesting, and more often than not comical. The grief the men are experiencing is not revealed to the last chapter, and even then, there is humor. East of Anywhere is optimistic, entertaining and a reminder of the healing power of art, honesty, and friendship.
