Know Your Retirement Rights S. Srinivasan 2021-10-14 Provident fund, pension and gratuity are the three major retirement benefits available to any workmen/officer in the bank. However, often it is noticed that many employees find it difficult to calculate the retirement benefits themselves and seek the assistance of the Central Office. With more than fifty per cent of employees/officers scheduled to retire within the next five years, there is a need to guide them in this regard. The book simplifies the whole process by providing the relevant provisions under the Scheme supported by innumerable examples, clarifications and authentic interpretations, culling out relevant pages of his self-publication, the most popular among IOB employees and management: **Know Your Rights**, self-published by Notion Press, Chennai, India.

Corporate Governance in India - Challenges Ram K Narayan 2021-06-11 Foreword note for the book is by Mr. Shailesh Haribhakti, Chartered Accountant - the only Indian to receive the Global Competent Board's Certification declaring him as ESG ready. He is also a winner of several corporate governance awards including the best Independent Director. He is a fellow of IOD. Unique feature of the book lies in the elaboration of the role of IDs and committees of board; templates for mandatory codes, policies, and reports – both incorporating requirements under SEBI Regulations/Act. Despite India having the best Corporate Governance framework the corporate frauds that keep surfacing underlines that the IDs and Auditors are yet to become independent in letter and spirit. Case of a listed PSU which failed to discharge fiduciary responsibilities leading to end of a good project and loss of huge public funds is also covered in the book.

Strengthening Competitiveness In Bangladesh—Thematic Assessment Sanjay Kathuria 2016-07-25 This is volume 2 of a three-volume publication on Bangladesh's trade prospects. Bangladesh's ambition is to build on its very solid

growth and poverty reduction achievements, and accelerate growth to become a middle income country by 2021, and share prosperity more widely amongst its citizens. This includes one of its greatest development challenges: to provide gainful employment to the over 2 million people that will join the labor force each year over the next decade. Moreover, only 54.1 million of its 94 million working age people are employed. Bangladesh needs to use its labor endowment even more intensively to increase growth and, in turn, to absorb the incoming labor. The Diagnostic Trade Integration Study identifies the following actions centered around four pillars to sustain and accelerate export growth: (1) breaking into new markets through a) better trade logistics to reduce delivery lags ; as world markets become more competitive and newer products demand shorter lead times, to generate new sources of competitiveness and thereby enable market diversification; and b) better exploitation of regional trading opportunities in nearby growing and dynamic markets, especially East and South Asia; (2) breaking into new products through a) more neutral and rational trade policy and taxation and bonded warehouse schemes; b) concerted efforts to spur domestic investment and attract foreign direct investment, to contribute to export promotion and diversification, including by easing the energy and land constraints; and c) strategic development and promotion of services trade; (3) improving worker and consumer welfare by a) improving skills and literacy; b) implementing labor and work safety guidelines; and c) making safety nets more effective in dealing with trade shocks; and (4) building a supportive environment, including a) sustaining sound macroeconomic fundamentals; and b) strengthening the institutional capacity for strategic policy making aimed at the objective of international competitiveness to help bring focus and coherence to the government's reform efforts. This second volume provides in-depth analysis across seven cross-cutting themes that underpin most of the findings of pillars 1 and 2 above.
