California Go Math! 2015 "California GO Math! is specifically designed for California teachers and students to ensure success with California Common Core Standards and the Smarter Balanced Assessment. California GO Math! K-6 incorporates mathematical practices in every lesson so students develop the mathematical thinking they need. It features exploration-driven lessons that begin with problem-based situations and build to more abstract problems. It includes resources to personalize instruction for Rtl, online assessment, and ongoing data to inform instruction for Intervention, ELD, and challenge."--Publisher's website.

One-Sheet-A-Day Math Drills Neki C. Modi This One-Sheet-A-Day math drill workbook is for 4th grade students who want extra practice with two digit division. It contains 200 math practice sheets, one for each school day of the year. Upon completion, the student will be more competent in 4th grade mathematics and ready to proceed with more difficult exercises. Unlike other math drill books, this is one of 24 workbooks created to establish a daily routine for each student to practice on their own from grades 1 through 7. It is specifically designed to gradually increase mathematic ability with the least amount of stress for both parent and student. Kids need to practice at home to support what they are learning in school, but finding resources to help with that goal can be daunting. It takes a lot of time searching online for free resources to print or for books with enough exercises. Beyond that, the options include going to libraries, enrolling them in an afterschool class or hiring a personal tutor. Who has the time and money for all of that? The answer is, not many parents. Each and every parent wants to provide enough practice work to their kids, but on top of the challenges in finding resources, questions remain about how much practice a child needs to boost educational success: twenty sheets of practice work a day? One sheet a week? What's the optimum practice work during a whole academic year? Confused? The authors have a decade of classroom expertise and have spent a large amount of time researching and wasting resources trying all the options for their own kids. Now you can benefit from what they have learnt. The result is finding out that "ONE-SHEET-A-DAY" is the optimum way to support classroom learning, and it is amazingly simple. This book eliminates the need to take home prints or run around franchises, bookstores and libraries trying to find enough material. It also prevents you from overwhelming your kids with too many math drill worksheets. There are approximately 200 school days a year. Simply have your child complete ONE per day. Work is far easier when it is part of a routine, especially for kids. The One-Sheet-per-Day program is an easy routine to start and maintain because it takes less than 20 minutes per day, using basic skills your child already knows. Simply take one sheet from the book, ask your child to complete it in a quiet place, and return it to you to check the answers, a painless routine for you and your child, and instant feedback for both of you. Geared to follow most math curriculums, most kids can do the appropriate sheet on their own based on what they are learning at school. "One-Sheet-A-Day" math practice drills will give your child practice they need to score higher on test day, and build confidence in their math abilities.

The leader in me Mariel Summers 2015-07-31 In het onderwijs ligt de focus terecht niet meer op kennisoverdracht alleen. De maatschappij vraagt van onze kinderen onder meer dat ze eigen verantwoordelijkheid nemen, probleemoplossend kunnen denken en goed kunnen samenwerken. Schoolprogramma's zijn daar niet altijd voldoende op toegerust. The Leader in Me is een procesaanpak die staf, leerlingen en ouders betreft bij het ontwikkelen van de vaardigheden die kinderen in de eenentwintigste eeuw nodig hebben. De aanpak is gebaseerd op de zeven eigenschappen van effectief leiderschap en wordt succesvol toegepast in landen over de hele wereld, ook in de Lage Landen. De zeven eigenschappen (gewoonten) van effectief leiderschap: 1 Wees proactief 2 Begin met het einde voor ogen 3 Belangrijke zaken eerst 4 Denk win-win 5 Eerst begrijpen, dan begrepen worden 6 Synergie 7 Houd de zaag scherp Stephen R. Covey was een internationaal vernaarde leiderschapsautoriteit, adviseur en leraar. Zijn bestseller De zeven eigenschappen van effectief leiderschap werd uitgeroepen tot het meest invloedrijke leiderschapsboek van de twintigste eeuw, met meer dan 25 miljoen verkochte exemplaren in 38 talen. Zijn zoon Sean Covey is executive vice president van FranklinCovey en leidt de divisie Education van het bedrijf. David K. Hatch is daar global director of strategic initiatives. Muriel Summers is sinds 1998 directrice van A.B. Combs in Raleigh, North Carolina. Ze heeft de eerste op leiderschap gebaseerde basisschool in de Verenigde Staten opgezet.
