The Reading Mind Daniel T. Willingham 2017-04-03 A Map to the Magic of Reading Stop for a moment and wonder: what's happening in your brain right now—as you read this paragraph? How much do you know about the innumerable and amazing connections that your mind is making as you, in a flash, make sense of this request? Why does it matter? The Reading Mind is a brilliant, beautifully crafted, and accessible exploration of arguably life's most important skill: reading. Daniel T. Willingham, the bestselling author of *Why Don't Students Like School?*, offers a perspective that is rooted in contemporary cognitive research. He deftly describes the incredibly complex and nearly instantaneous series of events that occur from the moment a child sees a single letter to the time they finish reading. The Reading Mind explains the fascinating journey from seeing letters, then words, sentences, and so on, with the author highlighting each step along the way. This resource covers every aspect of reading, starting with two fundamental processes: reading by sight and reading by sound. It also addresses reading comprehension at all levels, from reading for understanding at early levels to inferring deeper meaning from texts and novels in high school. The author also considers the undeniable connection between reading and writing, as well as the important role of motivation as it relates to reading. Finally, as a cutting-edge researcher, Willingham tackles the intersection of our rapidly changing technology and its effects on learning to read and reading. Every teacher, reading specialist, literacy coach, and school administrator will find this book invaluable. Understanding the fascinating science behind the magic of reading is essential for every educator. Indeed, every "reader" will be captivated by the dynamic but invisible workings of their own minds.

Women Do Genre in Film and Television Mary Harrod 2017-10-30 This volume examines how different generations of women work within the genericity of audio-visual storytelling not necessarily to 'undo' or 'subvert' popular formats, but also to draw on their generative force. Recent examples of filmmakers and creative practitioners within and outside Hollywood as well as women working in non-directing authorial roles remind us that women are in various ways authoring commercially and culturally impactful texts across a range of genres. Put simply, this volume asks: what do women who are creatively engaged with audio-visual industries do with genre and what does genre do with them? The contributors to the collection respond to this question from diverse perspectives and with different answers, spanning issues of direction, screenwriting, performance and audience address/reception.

The Life and Times of Mickey Rooney Richard A. Lertzman 2015-10-20 A definitive biography of the iconic actor and Hollywood legend Mickey Rooney (1920-2014) and his extravagant, sometimes tawdry life, drawing on exclusive interviews, and with those who knew him best, including his heretofore unknown mistress of sixty years. "I lived like a rock star," said Mickey Rooney. "I had all I ever wanted, from Lana Turner and Joan Crawford to every starlet in Hollywood, and then some. They were mine to have. Ava [Gardner] was the best. I screwed up my life. I pissed away millions. I was #1, the biggest star in the world." Mickey Rooney began his career almost a century ago as a one-year-old performer in burlesque and stamped his mark in vaudeville, silent films, talking films, Broadway, and television. He acted in his final motion picture just weeks before he died at age ninety-three. He was an iconic presence in movies, the poster boy for American youth in the idyllic small-town 1930s. Yet, by World War II, Mickey Rooney had become frozen in time. A perpetual teenager in an aging body, he was an anachronism by the time he hit his forties. His child-star status haunted him as the gilded safety net of Hollywood fell away, and he was forced to find support anywhere he could, including affairs with beautiful women, multiple marriages, alcohol, and drugs. In *The Life and Times of Mickey Rooney*, authors Richard A. Lertzman and William J. Birnes present Mickey's nearly century-long career within the context of America's changing entertainment and social landscape. They chronicle his life story using little-known interviews with the star himself, his children, his former coauthor Roger Kahn, collaborator Arthur Marx, and costar Margaret O'Brien. This Old Hollywood biography presents Mickey Rooney from every angle, revealing the man Laurence Olivier once dubbed "the best there has ever been."

The Mess in My Head Robert N Stephenson 2019-04-05 This collection of short stories captures a time when the author was at his worst with clinical depression (bipolar) and the medication levels were not quite right. All of these stories display more a state of mind rather than

any visionary insights into the conditions and how the author dealt with problems arising from the illness. The interesting thing would be what was being imagined at a time when the mind wasn't working in a positive or even productive fashion. It isn't impossible to write fictions when your mind is in crash mode, but it is difficult. This collection features strange stories, mad stories, visions that are macabre and insights that are touching. 500 000 words were written in the short story format and while some are available in other collections, all these are unique to this collection. *The Mess in My Head* is a journey and one that unexpectedly delivers on its promise. To be strange.

Hischak 2008-06-02 From the silver screen to the Great White Way, small community theatres to television sets, the musical has long held a special place in America's heart and history. Now, in *The Oxford Companion to the American Musical*, readers who flocked to the movies to see *An American in Paris* or *Chicago*, lined up for tickets to *West Side Story* or *Rent*, or crowded around their TVs to watch *Cinderella* or *High School Musical* can finally turn to a single book for details about them all. For the first time, this popular subject has an engaging and authoritative book as thrilling as the performances themselves. With more than two thousand entries, this illustrated guide offers a wealth of information on musicals, performers, composers, lyricists, producers, choreographers, and much more. Biographical entries range from early stars Fred Astaire, Bing Crosby, Mary Martin, and Mae West to contemporary show-stoppers Nathan Lane, Savion Glover, and Kristin Chenoweth, while composers Irving Berlin, George Gershwin, Richard Rodgers, and Andrew Lloyd Webber all have articles, and the choreography of Bob Fosse, Tommy Tune, and Debbie Allen receives due examination. The plays and films covered range from modern hits like *Mamma Mia!* and *Moulin Rouge!* to timeless classics such as *Yankee Doodle Dandy* and *Show Boat*. Also, numerous musicals written specifically for television appear throughout, and many entries follow a work-Babes in Toyland for example-as it moves across genres, from stage, to film, to television. The Companion also includes cross references, a comprehensive listing of recommended recordings and further reading, a useful chronology of all the musicals described in the book, plus a complete index of Tony Award and Academy Award winners. It shows what to avoid and what to demand in today's apps and e-books—as well as what to seek in community preschools, elementary schools and libraries. Vintage Babes Elizabeth Oldfield 2012-10-23 Divorced, fifty-plus and a reporter on a small-town newspaper, Carol has just one grumble – the way friends and family will try to fix her up with a Mr Wonderful. No thanks! She's perfectly content on her own. Then life shifts into the kick-ass mode. Steve, a tyrannical new editor, arrives: her elderly father morphs into a babe magnet: her daughter and granddaughter land on her doorstep, and black hairs sprout from Carol's chin. Jenny, Carol's meek plump housewife friend, is eager to find herself a job, but her husband disapproves. Screen Time Lisa Guernsey 2012-03-20 As a mother, Lisa Guernsey wondered about the influence of television on her two young daughters. As a reporter, she resolved to find out. What she first encountered was tired advice, sensationalized research claims, and a rather draconian mandate from the American Academy of Pediatrics: no TV at all before the age of two. But like many parents, she wanted straight answers and realistic advice, so she kept digging: she visited infant-perception labs and child development centers around the country. She interviewed scores of parents, psychologists, cognitive scientists, and media researchers, as well as programming executives at

Noggin, Disney, Nickelodeon, Sesame Workshop, and PBS. Much of what she found flies in the face of conventional wisdom and led her to conclude that new parents will be best served by focusing on &"the three C's": content, context, and the individual child. Into the Minds of Babes is a fascinating book that points out how little credible research exists to support the AAP's dire recommendation. Parents, teachers, and psychologists will be relieved to learn positive approaches to using videos with young children and will be empowered to make their own informed choices.

Write It in the Hearts of Women Hinemoa Pourewa 2019-08-13 Often, there is emotional turmoil that erupts within the very essence of a woman's being, yet so many women are unable to speak the words of their aching hearts. Hinemoa Pourewa is the poetic instrument of this pain. She is a voice, compelled to announce women's silent fears. Through these pages, a hand is stretched out in earnest to hold, seek comfort, and above all, share truth. Pourewa's poetry exhibits self-honesty and self-reflection. She faces issues that many women find too painful or even embarrassing to discuss. Yet, she finds the courage to share her struggles, in turn helping others in similar situations. A cry for sisterhood yearns to be heard so that a solitary voice may rise in unison. A pathway is lit, and a light-bearer rises out of the abyss to cry, "I am a survivor!"

Net Works xtine burrough 2012-05-23 Net Works offers an inside look into the process of successfully developing thoughtful, innovative digital media. In many practice-based art texts and classrooms, technology is divorced from the socio-political concerns of those using it. Although there are many resources for media theorists, practice-based students sometimes find it difficult to engage with a text that fails to relate theoretical concerns to the act of creating. Net Works strives to fill that gap. Using websites as case studies, each chapter introduces a different style of web project--from formalist play to social activism to data visualization--and then includes the artists' or entrepreneurs' reflections on the particular challenges and outcomes of developing that web project. Scholarly introductions to each section apply a theoretical frame for the projects. A companion website offers further resources for hands-on learning. Combining practical skills for web authoring with critical perspectives on the web, Net Works is ideal for courses in new media design, art, communication, critical studies, media and technology, or popular digital/internet culture.

Babes in Toyland Neal Karlen 2013-07-24 Babes in Toyland is a rare peek into the glamorous and tough world of rock and roll—an exclusive backstage pass for anyone who has ever fantasized about starting a band, being discovered by a major label, recording an album, and touring the country to play music in front of thousands. Also, with its revealing look at the record business—an industry that makes the rest of show business seem positively tame—this book is as immediate as a new issue of Rolling Stone, as colorful as a good mystery, and as tart and explosive as a top-ten hit. Told with the gritty, up-close feel of a behind-the-scenes documentary film, this is the story of three young women who wanted to play rock and roll like the boys. It follows their coming together in the underground grunge-rock scene in Minneapolis, their early club days, and their discovery by Warner Bros. Records. It tracks their dramatic breakup (and reconfiguration), goes through the often funny, sometimes inspiring, and always emotional recording sessions for their album Fontanelle, and goes stage-side as they film their all-important video for MTV. Veteran journalist Neal Karlen was given unprecedented access to Warners marketing and strategy meetings, where he observed firsthand the star-making machinery that runs the pop music business. From punk rockers in the mosh pit to rock stars in mansions, Babes in Toyland contains revealing snapshots of Kurt Cobain and Courtney Love, Soul Asylum's Dave Pirner, Pearl Jam's Eddie Vedder, and R.E.M.'s Michael Stipe, as well as Beavis and Butt-head, today's most powerful rock critics. Center-stage in this story are the members of Babes in Toyland: Kat Bjelland, the punk-rock poetess who'd dreamed of being a star since she was five years old; Lori Barbero, the dreadlocked drummer and band mother who was best friend to everybody in the alternative music scene; and Maureen Herman, the brainy bassist who struggled to fit in with the group. There's also Tim Carr, the Warner Bros. A & R man who saw in the Babes the talent and drive to make it to the top of the grunge scene. Finally, there's Babes in Toyland's triumphant spot on the 1993 Lollapalooza, the most prestigious tour in rock and roll. In this real-life version of The Commitments, readers will also see how success can do more to damage a band of best friends than failure.
