*Librarians as Learning Specialists: Meeting the Learning Imperative for the 21st Century* Allison Zmuda 2008-06-30 Zmuda and Harada explore the increasing number of job descriptions in schools for learning specialists with the accompanying difficulty in effectively leveraging these roles to positively affect student learning. School librarians have been one of these learning specialists for decades. The ranks have expanded in recent years to include many other content area specialists. Grant Wiggins' foreword emphasizes the relevance of learning specialists is grounded in their ability to deliver results on mission-critical measures. This title incorporates quotations, exemplars, and findings from experts in both mainstream and librarian-focused education literature in an inclusive approach making the text accessible and credible for any leader charged with improving the system's ability for improved student achievement. There are an increasing number of job descriptions in schools for learning specialists - certified teachers with specialized areas of expertise whose job it is to improve student performance. While these positions are attractive ideas in theory, there are real challenges in effectively leveraging such roles to positively affect student learning. School librarians have been one of these learning specialists for decades. The ranks have expanded in recent years to include reading specialists, literacy coaches, writing coaches, technology specialists, mathematics specialists, science specialists, and teachers of English Language Learners. References included throughout the book incorporate quotations, exemplars, and findings from experts in both mainstream and librarian-focused education literature. This inclusive approach makes the text accessible and credible for any leader charged with improving the system's ability for improved student achievement. Grant Wiggins' foreword emphasizes the premise that the relevance of learning specialists is grounded in their ability to deliver results on mission-critical measures.

**10 blind dates Ashley Elston 2019-10-22 Een hilarische en hartverwarmende YA-romance over vriendschap, liefde en familie. De filmrechten van 10 blind dates zijn verkocht aan de makers van de Netflix-hit To All the Boys I've Loved Before! Sophie wil maar één kerstcadeau: een beetje vrijheid van haar overbeschermende ouders. Wanneer die besluiten de kerstdagen ergens anders te vieren, verheugt Sophie zich op wat privé-tijd met haar vriendje Griffin. Totdat ook Griffin behoefte aan vrijheid blijkt te hebben... Met een gebroken hart vlucht Sophie naar het huis van haar grootouders, om samen met de rest van haar familie de feestdagen door te komen. Haar oma bedenkt een (niet zo) briljant plan om Griffin te vergeten: de komende tien dagen zal ieder familielid een blind date voor Sophie organiseren. Zo regelt haar nichtje Sara een superknappe jongen én kaarten voor een exclusief feest. En haar gekke tante Patrice bezorgt Sophie de hoofdrol in een levende kerststal – met een jongen die nauwelijks tot haar schouders komt én een krijsende baby. Wanneer Griffin haar toch smeekt om een tweede kans, is Sophie in de war. Zou het kunnen dat ze gevoelens heeft voor iemand anders?**

*Change Agents in Science Education* Koshi Dhingra 2006 In this engaging and well crafted book, *Change Agents in Science Education* situates the science educator in dynamic social, political, and cultural environments where individuals are engaged in science for change. A wide range of educational contexts are described in the book, including urban school settings in the U. S., slum communities in Mumbai, India, an agricultural community in Benin, Africa, a children's educational television program production company in the U. S. In each context, powerful examples of how science was enacted to transform ways of thinking and doing are demonstrated. Each contributor shares experiences with science, and the challenges, triumphs and lessons learned which need to be considered and addressed as part of the role of the science educator. Change, it is argued, needs to be facilitated on a variety of levels in order for learning to take place. Science educators working in a wide range of settings, community-based educational groups, and students and researchers interested in formal and informal science education, will benefit from the perspectives provided in this book.

**Handbook of Social Skills and Autism Spectrum Disorder Justin B. Leaf 2017-10-17 This handbook identifies the various social deficiencies widely associated with children and youth diagnosed with autism spectrum disorder (ASD). It discusses possible causes as well as the lifelong effects if these deficiencies are not addressed. The handbook presents current behavioral and curriculum-based methods for assessing social deficits. Chapters examine the various interventions that have been used to improve social skills and behavior, including video modeling, peer-mediated interventions, and script fading. Chapters also assess various interventions using empirically based procedures, evaluate the research of each of these procedures, provide guidelines for treatment planning, and offer clinical recommendations. The handbook concludes with future directions for the development of both social behavior and clinical social skills interventions. Topics featured in the Handbook include: Impairments in social behavior that may result in negative outcomes such as depression, loneliness, and suicide in individuals with ASD. Bullying among youth with ASD. Behavioral skills training to promote social behavior of individuals with ASD. The Early Start Denver Model approach to helping young children with ASD. The implementation of social skills groups for individuals diagnosed with ASD. The Handbook of Social Skills and Autism Spectrum Disorder is a must-have resource for researchers, clinicians/professionals, and graduate students in clinical child, school, and developmental psychology, behavioral therapy, and social work, as well as such interrelated disciplines as child and adolescent psychiatry, rehabilitation medicine/therapy, pediatrics, and special education/educational psychology.**
