Maritime Law Edgar Gold 2003 This book is the first general treatment of Canadian maritime law to be published since 1916. This comprehensive text covers the whole of modern shipping law, including admiralty jurisdiction and procedure; ownership of ships; maritime mortgage and liens; insurance; carriage of goods; environmental issues; and limitation of liability.

Canadian Books in Print. Author and Title Index 1975

The Law of Sentencing Allan Manson 2001 The book includes a postscript on the Supreme Court of Canada decision in *R v. Latimer*.--Pub. desc.

Securities Law Jeffrey G. MacIntosh 2002 Canadian securities law comprises a unique mix of enduring basic principles and constantly-changing technical details. This new book provides a solid introduction to both; it looks at securities law topics--including definitions, the public and exempt markets for securities, insider trading, and continuous disclosure--and larger public policy issues.

Ethics and Canadian Criminal Law Michel Proulx 2001 This text provides a thoughtful survey of the most important ethical issues faced by criminal lawyers in Canada today. Each chapter provides a detailed discussion of a particular issue with both real and hypothetical examples, analyzes the case law involved, and suggests ways in which the issue may be handled.

Chemical Injury and the Courts Linda Price King 2015-11-16 A chemical injury can happen at any time to anyone, regardless of age, background, or economic status. It can happen either on the job or in the home, and can affect many members of a community. Such an injury often does not show up immediately but develops over a long period. Often, however, sufferers from chemical exposure are victimized not only by the chemicals but also by a legal system that seems to require complicated and expensive court action. This helpful guide to chemical-injury litigation offers practical strategies that clients and their attorneys can use to better serve their cases. Presenting a clear blueprint of client rights and responsibilities, the book will improve the standard of legal services for both individuals and communities. The guide addresses in detail several important areas of chemical injury and the legal process: defining problems and solutions; examining available resources; cultivating a knowledge of chemical-related diseases and injuries; and facilitating effective attorney-client relationships and case strategies. Leading attorneys contribute case studies and essays offering perspectives on chemical injury and the law.

Canadian Books in Print Marian Butler 2002-02 CBIP is the complete reference and buying guide to English-language Canadian books currently in print; consequently, the Author and Title Index, Subject Index and microfiche editions are indispensable to the book profession. With submissions from both small and large publishers, CBIP provides access to titles not listed anywhere else. Containing more than 48,000 titles, of which approximately 4,000 have a 2001 imprint, the Author and Title Index is extensively cross-referenced. The Subject Index lists the titles under 800 different subject categories. Both books offer the most complete directory of Canadian publishers available, listing the names and ISBN prefixes, as well as the street, e-mail and web addresses of more than 4,850 houses. The quarterly microfiche service provides updated information in April, July and October. CBIP is constantly referred to by order librarians, booksellers, researchers, and all those involved in book acquisition. In addition, CBIP is an invaluable record of the vast wealth of publishing and writing activity in the scientific, literary, academic and arts communities across Canada. A quarterly subscription service including the annual Author and Title Index (March 2001) plus quarterly microfiche updates (April, July, and October 2001) is also available. ISBN 0802049567 \$220.00 NET.

Essentials of Law for Health Professionals Kim Forrester 2010-03-26 *Essentials of Law for Health Professionals* 3e has been thoroughly revised and updated throughout to reflect the most recent changes in legislation relevant to the provision of health care services in Australia. Employment status of health professionals and issues of work cover, health and safety obligations, anti-discrimination issues are clearly outlined and discussed in the new edition. Legal issues surrounding genetics, fertility and surrogacy are reviewed in conjunction with the current position on abortion and wrongful deaths. The breadth of material is presented in a manner that is more in keeping with a student resource text rather than a law book. It emphasises major points and includes summaries on how the law relates to practice rather than merely stating the law. The new third edition continues to present contemporary issues relevant for Health Science students from the clinical setting through to management and employment, as they apply to each state. Streamlined new edition includes updates to key chapters such as: Chapter 5 Negligence, which has been completely rewritten to discuss negligence by jurisdiction Chapter 8 Manipulation of Life now deals with topical and controversial issues such as abortion, wrongful death, tissue transplants, genetics and infertility Chapter 10: Contractual and Industrial Elements of Professional Practice has been updated to include the most recent changes to Industrial Relations Law, information that is essential for any Health Professional entering into employment. Chapter 11: Statutes Controlling Health Service Delivery has been revised with respect to drugs and continues to provide the significant legislation most likely to impact on the daily practice of the health professional namely poisons, mental health legislation, child and elder abuse, and the notification of births and deaths. New Chapter 12: Registration and Regulation of Health Professionals highlights the contemporary issues faced by health professionals with the implementation of National Registration. Addition of legislation regulating research and a discussion of the legislative and common law controls on conducting research within Australian healthcare systems - National Health and Medical Research Council Act Update all appendices and include the Decision Making Framework for Nurses plus Glossary Takes a multidisciplinary approach to the subject of health care law and includes case-studies and activities. Discussion on the implications of evidence-based practice on the standard notionally attributed to the duty of care.

The Charter of Rights and Freedoms Robert J. Sharpe 2005 No other Canadian book provides such an accessible yet thorough and objective account of the "Canadian Charter of Rights and Freedoms." The text has been thoroughly updated to reflect "Charter" jurisprudence since publication of the second edition in 2002. It covers the history of the "Charter," legitimacy of judicial review, limitation of "Charter" rights, "Charter" litigation, language rights, equality rights, and "Charter" rights of the criminally accused.

Essentials of Law for Health Professionals Kim Forrester 2014-11-12 Perfect for: • Bachelor of Nursing students • Diploma of Nursing students • Bachelor of Midwifery students • Bachelor of Paramedicine students • Bachelor of Health science students • Post graduate Nursing and Midwifery students *Essentials of Law for Health Professionals* 4e provides students with the information and knowledge necessary to make well-informed and considered decisions about their legal rights and obligations, and the legal rights and obligations of the patients and clients under their care. • Introduces the fundamental concepts and frameworks of health law with clear examples • Focuses on the importance of accurate records, patient confidentiality and the impact of medical negligence • Provides an increased focus on ethical issues, particularly around refusal and/or withdrawal of treatment, guardianship and the manipulation of life • Outlines the obligations and responsibilities in relation to medicines, mental health legislation, child and elder abuse, and explores the management of health complaints • Highlights contemporary issues around National Registration requirements for health professionals. • Revised chapters explaining the roles of government and legal professionals • Chapter 12; Registration and Regulation of Health Professionals reflects the National registration requirements for health professionals • Issues of euthanasia, assisted suicide, mental health, abuse and negligence have been enhanced.

Media Law Robert Martin 2003 "Media Law" is written for anyone whose day-to-day livelihood depends on, or is affected by, the publication, broadcast, or transmission of information and opinion in what is known as the mass media. For the practising lawyer, the book will serve as an indispensable desk reference; for the working journalist, it is a lexicon of conduct. Students of law or journalism will find the book an accessible and authoritative text--one that they will refer to often during their academic careers and throughout their professional lives. The central concept around which the book is organized is freedom of expression. In "Media Law," Professor Martin brings together elements from a number of different areas of the law, including criminal law, constitutional law, and the law of torts, in a lively treatment of the legal framework within which journalists work.

Essentials of Law for Medical Practitioners Forrester Griffiths 2010-11-20 This easy-to-read medico-legal text assumes no prior legal practice knowledge or experience, making it ideal for those new to the medical industry. The content provides a brief overview of the law in several practice areas, allowing practitioners to locate key information quickly. Topical issues discussed in *Essentials of Law for Medical Practitioners* include privacy and confidentiality of patient information, medical negligence, fertility and reproductive technology, the laws regarding mental health issues and professional regulation and discipline

Damage Caused by Genetically Modified Organisms Bernhard A. Koch 2010-10-28 The debate about the use of genetically modified organisms is fuelled by the fear of potential hazards of GM farming. Classic tort law already offers remedies should such risks materialize. In some countries, this is enhanced or replaced by alternative redress schemes. This volume compares more than twenty jurisdictions in this respect, provides special analyses from an economic and insurance perspective and also addresses cross-border problems and international law.

Bowker's Law Books and Serials in Print 1998

Legal Bibliography, New Series 1894

National Security Law Craig Forcese 2008 National Security Law is a comprehensive handbook that focuses on the law and legal instruments governing the Canadian state's response to events that jeopardize its national security. This text, part of Irwin Law's *Essentials of Canadian Law* series, is informed by international and comparative law. It is up to date to the end of July 2007.

Remedies Jamie Cassels 2000

Public International Law John H. Currie 2008 This edition is a significant revision of the 2001 text and is a systematic introduction to the international legal system.

Cengage Advantage Books: Business Law Today, The Essentials: Text and Summarized Cases Roger LeRoy Miller 2013-01-04 Interesting, clear, and applied, BUSINESS LAW TODAY: THE ESSENTIALS is your concise guide to the law and what it means in the business world—from contracts and secured transactions to warranties and government regulations. Easy to understand with an engaging writing style that is matched by vibrant visuals, BUSINESS LAW TODAY includes coverage of contemporary topics that impact not only the business world, but your life such as identity theft. Fascinating features and intriguing cases highlight the material's practicality. The text's companion website includes resources to help you study, such as sample answers to selected end-of-chapter business scenarios and case problems (one per chapter); Internet exercises; and interactive quizzes for every chapter. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Environmental Law Jamie Benidickson 2002 Of serious and persistent concern to most Canadians, environmental protection is governed by a complex and controversial legal regime that is affected by constitutional division of jurisdiction, corporate and taxation laws, international trade law, and traditional private law doctrines such as torts and contract law. Statutes and regulations that are specifically designed to protect the environment, and the institutional frameworks within which they operate, are often the subject of competing political agendas. This authoritative book describes the evolution and current practice of environmental law and policy in Canada. It will be of interest to concerned individuals, environmental groups, corporate officials, technical and scientific experts, public servants, and legal professionals whose practice is increasingly affected by environmental considerations.

Canadian Books in Print 2003

Divergences in Private Law Andrew Robertson 2016-01-28 This book is a study of doctrinal and methodological divergence in the common law of obligations. It explores particular departures from the common law mainstream and the causes and effects of those departures. Some divergences can be justified on the basis of a need to adapt the common law of contract, torts, equity and restitution to local circumstances, or to bring them into conformity with local values. More commonly, however, doctrinal or methodological divergence simply reflects different approaches to common problems, or different views as to what justice or policy requires in particular circumstances. In some instances divergent methodologies lead to substantially the same results, while in others particular causes of action, defences, immunities or remedies recognised in one jurisdiction but not another undoubtedly produce different outcomes. Such cases raise interesting questions as to whether ultimate appellate courts should be slow to abandon principles that remain well accepted throughout the common law world, or cautious about taking a uniquely divergent path. The chapters in this book were originally presented at the Seventh Biennial Conference on the Law of Obligations held in Hong Kong in July 2014. A separate collection, entitled *The Common Law of Obligations: Divergence and Unity* (ISBN: 9781782256564), is also being published.

Insurance Law Denis W. Boivin 2015 Insurance is everywhere in Canadian society: health, employment, transportation, commerce, industry, and communications are all sectors of activity affected by insurance. Whether public or private, compulsory or voluntary, insurance touches everyone on a daily basis. Where there are risks, there is a need for insurance -- and one cannot live in the twenty-first century without encountering risk day in and day out. The ubiquity of insurance comes at a cost. This price is paid by all Canadians and not only by those who hold insurance policies. Every year, Canadian policyholders pay billions of dollars in premiums to private insurance companies. Regulation is another consequence of the prevalence of insurance. Canadian insurance law is a complex mixture of federal and provincial legislation, common law, and custom. This book offers a detailed survey of this regulatory patchwork, divided into three parts. Part 1 provides an introduction to the creation and enforcement of insurance contracts. The subject of Part 2 is the creation of an enforceable insurance contract. Part 3 examines the principles applicable to the enforcement of insurance contracts.

The Law of Torts, 6/e Philip H. Osborne 2020-03-09 The Law of Torts is an indispensable resource for those seeking a concise and accessible introduction to the principles of tort law. The sixth edition explores current trends in judicial decision-making. The text also discusses new initiatives in the areas of privacy, human trafficking, and anti-SLAPP legislation.

A Catalogue of the Law Collection at New York University Julius J. Marke 1953 Marke, Julius J., Editor. A Catalogue of the Law Collection at New York University With Selected Annotations. New York: The Law Center of New York University, 1953. xxxi, 1372 pp. Reprinted 1999 by The Lawbook Exchange, Ltd. LCCN 99-19939. ISBN 1-886363-91-9. Cloth. \$195. * Reprint of the massive, well-annotated catalogue compiled by the librarian of the School of Law at New York University. Classifies approximately 15,000 works excluding foreign law, by Sources of the Law, History of Law and its Institutions, Public and Private Law, Comparative Law, Jurisprudence and Philosophy of Law, Political and Economic Theory, Trials, Biography, Law and Literature, Periodicals and Serials and Reference Material. With a thorough subject and author index. This reference volume will be of continuous value to the legal scholar and bibliographer, due not only to the works included but to the authoritative annotations, often citing more than one source. Besterman, A World Bibliography of Bibliographies 3461.

The Law of Torts Philip H. Osborne 2011 The Law of Torts by Philip Osborne is an indispensable resource for practitioners, judges, and students seeking a concise and accessible introduction to the principles of tort law in Canada, the social policies underlying the law, and current trends in judicial decision-making. The book reviews the foundations, characteristics, and objectives of tort law generally with specific discussion of the central concepts of negligence, intentional torts, strict liability and vicarious liability, nuisance, and defamation. It provides insightful analysis of the relationships between tort law and other branches of private law, including contract law and restitution, and public law, particularly the Charter of Rights and Freedoms. The fourth edition includes new sections dealing with negligent investigations, malicious prosecution and Crown prosecutors, responsible communication on a matter of public interest, reportage, and cyber-defamation. The Canadian law of torts is described as it was on 1 January 2011.

Conflict of Laws Stephen G. A. Pitel 2010 Explains and analyzes the rules of the conflict of laws in force in common law Canada in a clear and concise manner. *Law Books Published* 2000

Immigration Law Jamie Chai Yun Liew 2015 This book builds upon the first edition as an introductory guide to immigration, refugee, and citizenship law. Its aim is to provide an overview, or a starting point, both for those who want to investigate the mechanics of Canada's immigration regime and for those who want to assess, critique, or question the aims and impacts of the law.

Smith & Hogan's Essentials of Criminal Law John Child 2015 Smith and Hogan's Essentials of Criminal Law combines the authority you would expect from a Smith and Hogan title with succinct coverage and a wealth of student friendly learning features to aid study.

Canada Law Reports Canada. Exchequer Court 1893

International & Transnational Criminal Law Robert John Currie 2010 However, as it is part of the "Essentials of Canadian Law" series, a major goal of the book is to explore fully the nexus between these bodies of international law and Canadian domestic law--and help Canadian courts and lawyers engage successfully with the international aspects of the cases they work on. Accordingly, the book contains: a stand-alone chapter on the prosecution of international crimes before Canadian courts; a detailed examination of how the various transnational crime treaties are implemented in Canadian law; and a full chapter on Canadian extradition and mutual legal assistance law and practice.

Mosby's Comprehensive Review for the Canadian RN Exam, Revised Janice Marshall-Henty 2013-03-30 Mosby's Comprehensive Review for the Canadian RN Exam, Revised First Edition provides a thorough review of nursing principles and practices to help you prepare for the Canadian Registered Nurse Examination™ (CRNE). In addition to offering an overview of essential material in each major clinical area, with references to established sources, the book features hundreds of end-of-chapter questions, followed by answers and rationales. Two practice exams with over 250 practice questions are also accompanied by answers and rationales. This is an indispensable resource for all nursing students preparing for the Canadian Registered Nurse Examination™! Introductory chapters describing the CRNE and tips for answering questions provide valuable guidelines for mastering multiple choice questions, helping to reduce test anxiety and improve performance. Each chapter includes practice questions that are representative of those found on the CRNE, and reflect the framework of nursing practice in Canada. The text features a diversity of practice settings and client situations, mirroring the diversity of nursing contexts in Canada. Questions have been authored by nursing experts with over 30 years of combined experience teaching nursing and preparing students to pass the CRNE. Appendices contain a full list of the CRNE Exam competencies, medical terminology, abbreviations, common laboratory and diagnostic tests, and mathematical formulae. Reflects the current CRNE blueprint; updated to conform to the CRNE 2010-2015 competencies and format. Classification legend with each Answer and Rationale indicates the Competency and Taxonomy being tested for each question.

Essentials of Torts William P. Statsky 2011-05-24 Ideal for instructors in need of a concise text, ESSENTIALS OF TORTS, Third Edition is a practical and relevant guide for the paralegal as well as for anyone preparing for a career in the field of law. Well-written, logical, and full of interesting and diverse pedagogical material, this text focuses on paralegal roles in tort litigation while providing students with a comprehensive overview of the law of torts. This condensed version of Statsky's TORTS: PERSONAL INJURY LITIGATION, Fifth Edition, ESSENTIALS OF TORTS has been thoroughly updated to include topics that are relevant for today's students including the Internet, terrorism, 9/11, and tort liability. Chapter objectives, margin definitions, review questions, and numerous exhibits are included in each chapter and serve to reinforce chapter concepts. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Remedies Jamie Cassels 2014 The law of judicial remedies, which includes the law of damages, ranges over the entire field of substantive private law, including the law of contract, tort, and property. In a pragmatic sense, an examination of the issue of remedies is crucial to civil litigators in that it provides critical insights into specific legal rules and arrangements. From a theoretical perspective, an understanding of the principles governing the choice of remedies and the methods of quantifying damages reveals much about the nature of the common law process. Remedies: The Law of Damages is both a succinct handbook for the practitioner and a rich entry point to the study of judge-made law. Highlights in the third edition include recent developments regarding remedies for breach of contract with alternative modes of performance and wrongfully dismissed employees' entitlement to discretionary benefits. There have been substantial revisions to chapters dealing with damages for personal injury, restitutionary remedies, certainty and causation, remoteness of damages, mitigation, and reasonableness of liquidated damages clauses.

Critical Disability Theory Dianne Pothier 2011-11-01 Despite the widespread belief that Canada is a country of liberty, equality, and inclusiveness, many persons with disabilities experience social exclusion and marginalization. In this book, twenty-four scholars from a variety of disciplines contend that achieving equality for the disabled is not fundamentally a question of medicine or health, nor is it an issue of sensitivity or compassion. Rather, it is a question of politics, and of power and powerlessness. This book argues that we need a new understanding of participatory citizenship that encompasses the disabled, new policies to respond to their needs, and a new vision of their entitlements.

Disgorgement of Profits Ewoud Hondius 2015-08-12 Disgorgement of profits is not exactly a household word in private law. Particularly in civil law jurisdictions – as opposed to those of the common law – the notion is not well known. What does it stand for? It is best illustrated by examples. One of the best known being the British case of *Blake v Attorney General*, [2001] 1 AC 268. In which a double spy had been imprisoned by the UK government before escaping and settling in the former Soviet Union. While there wrote a book on his experiences, upon which the UK government claimed the proceeds of the book. The House of Lords, as it then was, allowed the claim on the basis of Blake's breach of his employment contract. Other examples are the infringement of intellectual property rights, where the damages of the owner are limited, but the profits of the wrongdoer immense. In such cases, the question arises whether the infringing party should be disgorged of his profits. This volume aims at establishing the notion of disgorgement of profits as a keyword in the discourse of private law. It does not purport to answer the question whether or not such damages should or should not be awarded. It does however aim to contribute to the discussion, the arguments in favour and against, and the organisation of the various actions.

Smith, Hogan, and Ormerod's Essentials of Criminal Law John Child 2021 Smith, Hogan, & Ormerod's Essentials of Criminal Law provides an ideal gateway into the dynamic world of criminal law. Focused, expert coverage, a hallmark of the Smith, Hogan, and Ormerod books, is supported by a wealth of student-friendly learning features that enhance learning in this ideal introduction for first time students. Dr John Child and Professor David Ormerod QC skilfully guide the new undergraduate reader through the subject, addressing all the key topics on the LLB. Complex issues are demystified and explained, offering a clear understanding of all offences and principles. Particular attention is paid to student assessment, with end of chapter sections offering advice on how to approach essay and problem questions. Short learning and assessment tips are provided throughout the chapters. Digital formats and resources The fourth edition is available for students and institutions to purchase in a variety of formats, and is supported by online resources. The e-book offers a mobile experience and convenient access along with self-test questions, videos, animated diagrams, audio introductions, and links that offer extra learning support: www.oxfordtextbooks.co.uk/ebooks The online resources include: - Over 400 self-test questions - A selection of videos from the authors explaining key topics and principles - Sample examination questions with answer guidance to help hone your assessment skills - Chapter summary sheets - Animated diagrams - Audio introductions to each chapter - Web links and further reading
