Paarse hibiscus Shimamanda Ngozi Adichie 2016-10-14 De vijftienjarige Nigeriaanse Kambili is de dochter van een en fanatiek religieuze man die voor de buitenwereld de reputatie heeft van een filantroop. Maar hij regeert zijn gharde hand en het leven van Kambili wordt bepaald door zijn strenge regels. Tijdens een logeerpartij bij een vrijge tante ontdekken zij en haar broer dat het ook anders kan: overal staan boeken, heerlijke etensgeuren overheerse gelach weerklinkt door het huis. Als ze naar hun vader terugkeren, escaleert de situatie binnen het gezin en Kam alles op alles zetten om haar familie bijeen te houden.

The Legacy of Felix Klein Hans-Georg Weigand 2018-12-11 This open access book provides an overview of Felix Klein's ideas, highlighting developments in university teaching and school mathematics related to Klein's thoughts, stemming from the last century. It discusses the meaning, importance and the legacy of Klein's ideas today and in the future in an international, global context. Presenting extended versions of the talks at the Thematic Afternoon at ICME-13, the book shows that many of Klein's ideas can be reinterpreted in the context of the current situation, and offers tips and advice for dealing with current problems in teacher education and teaching mathematics in secondary schools. It shows that old ideas are timeless, but that it takes competent, committed and assertive individuals to bring these ideas to life. Throughout his professional life, Felix Klein emphasised the importance of reflecting upon mathematics teaching and learning from both a mathematical and a psychological or educational point of view. He also strongly promoted the modernisation of mathematics in the classroom, and developed ideas on university lectures for student teachers, which were later consolidated at the beginning of the last century in the three books on elementary mathematics from a historical standpoint.

Henry E. Duckworth 2000-10-12 In his engaging memoirs, *One Version of the Facts: My Life in the Ivory Tower*, Dr. Henry Duckworth takes readers from his student days in Winnipeg and Chicago in the 1940s to his time as president of the University of Winnipeg (1971-1981) and chancellor of the University of Manitoba. An accomplished physicist, he wrote the first definitive text in English on mass spectroscopy, discovered the last stable element (platinum), and helped create important programs at universities and at the National Research Council. He also served on numerous councils for scientific and university organizations, and rubbed shoulders with Nobel Prize winners at international conferences. With humour and modesty, Henry Duckworth recalls trends, changes, and crises he witnessed throughout his long university career. He offers his observations, his opinions, his "version of the facts," providing special insight into critical years in Canada's university education history, as well as his own specialty, atomic research.

Michael Kendall 2008-07-25 ED-L2L, Learning to Live in the Knowledge Society, is one of the co-located conferences of the 20th World Computer Congress (WCC2008). The event is organized under the auspices of IFIP (International Federation for Information Processing) and is to be held in Milan from 7 to 10th September 2008. ED-L2L is devoted to themes related to ICT for education in the knowledge society. It provides an international forum for professionals from all continents to discuss research and practice in ICT and education. ED-L2L brings together educators, researchers, policy makers, curriculum designers, teacher educators, members of academic institutions, teachers and content producers. ED-L2L is organised by the IFIP Technical Committee 3, Education, with the support of the Institute for Educational Technology, part of the National Research Council of Italy. The Institute is devoted to the study of educational innovation brought about through the use of ICT. Submissions to ED-L2L are published in the conference book. The published papers are devoted to the published conference themes: Developing digital literacy in the knowledge society: information problem solving, creating, capturing and transferring knowledge, commitment to learning Teaching and learning in the knowledge society, playful and fun learning at home and in the school New models, processes and systems for formal and informal learning environments and organisations Developing a community of intelligence, learning together and sharing knowledge ICT issues in education - ethics, equality, inclusion and partnership Educating ICT professionals for the global knowledge society Managing the transition to the knowledge society

Johan Lubbe & Theodorus du Toit (author) 1901 The bilingual South African Language Rights Monitor 2008 / Suid-Afrikaanse Taal regtemonitor 2008 is the seventh annual report on the situation pertaining to language rights and language matters in general in South Africa. It cultivates an awareness of language rights and promotes a culture of taking proactive measures in order to oppose violations of language rights. Such awareness could lead, on the one hand, to the further democratisation of the community, and on the other hand, to increasing participation in public life.
