THE STANDARD DICTIONARY OF FACTS: A PRACTICAL HANDBOOK OF READY REFERENCE BASED UPON EVERYDAY NEEDS 1922

TIME For Kids Big Book of Where Editors of TIME For Kids Magazine 2015-12-01

TIME For Kids BIG Book of Where presents kids 8-12 years old with answers to the kinds of intriguing geography questions that appeal to their sense of curiosity. Colorful maps, spectacular photos and clear, engaging diagrams will help answer questions such as: Where is the tallest mountain?; Where did the Olympics begin?; Where is the Petrified Forest?; Where are diamonds found?; Where was the hamburger invented?; Where does spam go after you delete it?

Kids will travel the world and their own backyards to learn about different customs, sports, history, and animals in each continent. Some questions will compare how some cultures differ. For example: Where do people sleep? Some cultures sleep in beds, others on the floor, some inside, some outside. TIME For Kids goes beyond just answering the question, and engages kids with thorough answers that will satisfy the most curious of kids.

The BIG Book of Where is a must-have kids geography book.

The Manual of Dates: a Dictionary of Reference to All the Most Important Events in the History of Mankind to be Found in Authentic Records George Henry Townsend 1862

Social Sciences Katherine D. McCann 2000-12-01 Beginning with volume 41 (1979), the University of Texas Press became the publisher of the Handbook of Latin American Studies, the most comprehensive annual bibliography in the field.

Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 130 specialists in various disciplines, the Handbook alternates from year to year between social sciences and humanities. The Handbook annotates works on Mexico, Central America, the Caribbean and the Guianas, Spanish South America, and Brazil, as well as materials covering Latin America as a whole. Most of the subsections are preceded by introductory essays that serve as biannual

evaluations of the literature and research under way in specialized areas. The Handbook of Latin American Studies is the oldest continuing reference work in the field. Katherine D. McCann is acting editor for this volume. The subject categories for

Volume 57 are as follows: Electronic Resources for the Social Sciences Anthropology Economics Geography Government and Politics International Relations Sociology

Visual Information Systems International Conference on Visual Information Systems 1996 1997-09-29 This book is a thoroughly arranged anthology outlining the state of the art in the emerging area of visual information systems. The chapters

presented are a selection of thoroughly refereed and revised full papers first presented at the First International Conference on Visual Information Systems held in February 1996. Next generation information systems have a high visual content, and

there will be a shift in emphasis from a paradigm of predominantly alphanumeric data processing to one of visual information processing. The book provides a detailed introductory chapter, two keynotes by leading authorities, sections on design and

architecture, database management and modelling, content-based search and retrieval, feature extraction and indexing, query model and interface, and object recognition and content organization.

Planetary Nebulae R. Weinberger 2012-12-06 Planetary nebulae are a keystone for the understanding of the evolution of stars, for deep insights into the physical processes prevailing in highly excited dilute nebulae, and for the chemical evolution in

galaxies. These objects, displaying an intriguing morphology, have a 'short' lifetime of a few tens of thousands of years, and have become one of the best studied classes of celestial sources. However, despite large and successful efforts from both the

observational and theoretical side, planetary nebulae still keep some of their secrets (like the widely unknown distances) and will undoubtedly also be objects of thorough investigations in the years to come.
