Sailing trips with Captain Sailnator Alexander Meyer 2015-05-11 In this book some sailing trips are described for you as an encouragement. By reading it you get an impression how such a trip could be like and what might happen underway. From being crew the first time when sailing around Mallorca to a big trip across the Baltic Sea, from skipper training to being

co-skipper on a big sailing school yacht everything can be found. The author talks about sailing under blue sky and in fog, of experiences in doldrums and near-gales, of the visit in beautiful harbours and romantic anchorages, of adventures with slipping anchors and big waves, of the fight against seasickness and against the humidity and the narrowness on board, of the camaraderie and the growing together of the crew, of encounters with dolphins and Portuguese man-o'-war and of the wonderful feeling to be at sea. The reports reflect the daily routine on a yacht authentically. Harbours and anchorages are mentioned by name so that you can follow all the trips on a map.

From Crew to Captain David Mellor 2010 The purpose of this book is to help people understand the transition from working for a big institution to working for themselves. David Mellor has made this journey and shows others how to do the same. He shows readers how to prosper rather than to merely survive and how their business venture will bring everything they wish for. The journey will take you through three very important phases: Reflecting - what does it take to make this transition - and is it for you?; Planning - how do you go about preparing to launch your business?; and, Doing - what attributes are going to be really important in the early days post-launch? You will be given practical tips and hints, all garnered from the 'University of Life'. Prior to establishing his own consultancy practice in 2001, David Mellor had a 25-year career in banking, which also gave him exposure to the small business market. Since 2001, he has capitalised on this and specialised in mentoring aspiring business owners, launching hundreds of people on this path, and on occasions persuading people not to do it! He uses practical tips and hints to help them launch with confidence and achieve success rather than just becoming another casualty.
