**Mars** Andy Weir 2014-05-22 Apollo 13 en Gravity meet Cast Away! Mark Watney is een van de eerste astronauten om voet op Mars te zetten. Hij zal waarschijnlijk ook een van de eersten zijn om er te sterven Astronaut Mark Watney is uitverkoren om als een van de eerste mensen voet op Mars te zetten. Hij zal waarschijnlijk ook een van de eersten zijn om daar te sterven. Nadat een zandstorm hem bijna fataal wordt en de overige bemanning, die ervan overtuigd is dat hij is omgekomen, zich gedwongen ziet de planeet te verlaten, bevindt Watney zich miljoenen kilometers van de rest van de mensheid verwijderd. Hij heeft geen enkele mogelijkheid om een signaal naar de aarde te versturen en zelfs als dat wel mogelijk zou zijn, zouden zijn voorraden opraken lang voordat een reddingsmissie hem zou kunnen bereiken. Bovendien krijgt hij waarschijnlijk niet eens de kans om te verhongeren. De dreiging van het defecte materieel, de vijandige omgeving op Mars of een simpele menselijke fout, kunnen hem eerder fataal worden. Maar Watney vertikt het op te geven. Gedreven door zijn inventiviteit, zijn technische kennis en een hardnekkig weigeren om op te geven probeert hij vastberaden het ene obstakel na het andere te overwinnen. Zal zijn vindingrijkheid genoeg zijn om tegen beter weten in te overleven? `Briljant, en uitermate meeslepend. The Wall Street Journal

*Selling Social Media* Daniel Faltesek 2018-05-17 Facebook, Twitter, Snapchat, YouTube, LinkedIn, and dozens of other services have been described as the vanguard of creative destruction across the media industries-disruptors of established business, heroes of a new economic narrative that supposes that the attention of individual users can be measured, managed, manipulated, backing methods that securitized, patented, and litigated attention in ways impossible before. *Selling Social Media* catalogues the key terms and discourses of the rise of social media firms with a particular emphasis on monetization, securitization, disruption, and litigation. Tensions between ideas and terms are critical, as the ways that different aspects of social media business are described change depending on the audience, scale, and maturity of the firm. These divergent discourses are bound together into a single story of social media, an industry that challenges the theories and descriptions of media that have come before. Through a reading of social media business this book offers a chance to revisit media theory in the context of a new social media companies and products that depend on a different understanding of media audiences, media industries, and public agency.

***The Aaronsohn Saga*** Shmuel Katz 2007 A celebrated botanist, who had won world fame as the discoverer of 'wild wheat,' Aaron Aaronsohn (1876 1919) created the first Jewish Agricultural Experiment Station in Palestine then under Turkish rule in 1910. His venture was supported and funded from the u.s. by a group which included Julius Rosenwald, Justices Louis D. Brandeis and Felix Frankfurter (both later on the u.s. Supreme Court), Judah L. Magnes (later President of the Hebrew University), and Henrietta Szold, the founder of Hadassah. In World War I, reacting against the oppressive Turkish regime, Aaronsohn founded a Jewish spy organization, nili, to help the British in the forthcoming battle for Palestine. Here is told the story of Aaronsohn, who is revealed as a master of strategy, and his sister Sarah, whose self-sacrificing devotion to the cause shows her to be a great historic personality in her own right. Historian Shmuel Katz here rectifies the absence of a comprehensive biography of Aaronsohn and the nili spy ring. Meticulously researched British War Office intelligence documents and the letters and field reports of nili s central figures illustrate the crucial contribution made by nili to the British conquest of Palestine. Powerfully written, with deep sensitivity to the emotional lives of the people portrayed, *The Aaronsohn Saga* is both solid history and a marvelous read.

***The Welfare of Domestic Fowl and Other Captive Birds*** Ian J. H. Duncan 2009-12-29 Animal welfare is attracting increasing interest worldwide, especially in developed countries where the knowledge and resources are available to (at least potentially) provide better management systems for farm animals, as well as companion, zoo and laboratory animals. The key requirements for adequate food, water, a suitable environment, appropriate companionship and good health are important for animals kept for all of these purposes. There has been increased attention given to farm animal welfare in many countries in recent years. This derives largely from the fact that the relentless pursuit of nancial reward and eficiency, to satisfy market demands, has led to the development of intensive animal production systems that challenge the conscience of many consumers in those countries. In developing countries, human survival is still a daily uncertainty, so that p- vision for animal welfare has to be balanced against human needs. Animal welfare is usually a priority only if it supports the output of the animal, be it food, work, clothing, sport or companionship. In principle the welfare needs of both humans and animals can be provided for, in both developing and developed countries, if resources are properly husbanded. In reality, however, the inequitable division of the world's riches creates physical and psychological poverty for humans and animals alike in many parts of the world.
