ASB Summer University 2006: Assessment of student satisfaction with a threefold approach Oliver Mühlich 2007-05-30 Inhaltsangabe:Abstract: The aim of the research presented here is to assess student satisfaction at the Aarhus School of Business (ASB) for the Summer University that was first introduced in July 2006. The European Performance Satisfaction Index (EPSI) was adapted to incorporate student satisfaction in order to reach this aim, and was used as the main approach in our thesis. The necessary data was gathered from online surveys we derived from the students. Two studies complemented this model. On the one hand, structured interviews were conducted with all relevant lecturers and on the other hand, a survey was conducted in two waves with Summer University participants. In the first wave, the students initial expectations were measured and in the second wave it was the degree of fulfilment for these expectations that were measured. Results from the EPSI model indicated that participants of the Summer University were satisfied overall with the program and will remain loyal. Surprisingly however, the variable image showed no direct impact on perceived value, satisfaction, and loyalty. The results from the interviews showed that lecturers were well chosen, but not adequately prepared for the program. In addition, the survey results indicated that expectations were to some degree fulfilled, but certain attributes of lecture quality experienced a negative disconfirmation of expectations. Furthermore, the direct comparison of data from the lecturers and the students suggested problems with the information flow between ASB, the lecturers, and the students. From these findings it can be concluded that overall, the Summer University was a success in the introduction of a new study program; however, there are some areas that need to be improved. Thus, our suggestions include new

positioning and better marketing for next year, concrete improvement of quality attributes and information flow, and a strategy for sustainability and expansion of the Summer University. Our work successfully presents student satisfaction with a threefold approach, not used hitherto. Combining all three approaches in one dissertation and establishing linkages and interrelations between them, provides an extensive insight towards student satisfaction. Considering ASB Summer University took place for the first time in 2006, the insights we provide and the recommendations we are able to give, will influence the further organisational and managerial development of the program. British Rail Class 60 Locomotives Edward Gleed 2016-07-15 During the mid-1980s, in a drive for greater efficiency, British Rail required another heavy freight locomotive, some of the earlier Type 5 freight locomotives being outdated and no longer regarded as suitable for heavy freight duties. The new Class 60 locomotive was to be constructed using lessons learned from the Classes 56 and 58. Six organisations were invited to tender but only three did so. The contract was awarded to Brush Electrical Machines (today, Brush Traction, part of the Wabtec Rail Group) for a powerful 60mph Type 5 Co-Co design, which resulted in an order being placed for one hundred Class 60 diesel-electric locomotives. Using original research from the National Archives, British Rail Class 60 Locomotives is a high illustrated guide that explores the commissioning of the Class 60s and their construction, testing and running. It undertakes an in-depth technical appraisal of the class and details names, liveries, modifications and preservation and includes the 'Super 60' refurbishment programme and acquisition of ten Class 60s for Colas Rail UK, bringing the timeline to the present day. Of interest to all diesel loco enthusiasts and railway modellers, this book is lavishly illustrated with 280 colour and black & white photographs, many previously unpublished.

Project Management Workbook and PMP / CAPM Exam Study Guide Frank P. Saladis 2017-04-12
Sharpen your project management skills and prepare for the latest PMP®/CAPM® exam The Project Management Workbook and PMP/CAPM Exam Study Guide is a two-in-one resource for mastering the Project Management Body of Knowledge (PMBOK®). As the companion to Project Management: A Systems Approach to Planning, Scheduling, and Controlling, this book provides the opportunity to strengthen your understanding of project management in real-world application, with questions, problems, and cases designed to enhance your critical thinking skills. Functioning as a stand-alone study guide to the Project Management Professional (PMP) Certification Exam, this book helps you develop the critical skills of a successful project manager with questions that show you what to expect on exam day. Interesting, enjoyable, and thought-provoking, this workbook and study guide helps you dig into the PMBOK and gain the professional insights that come only from applying what you've learned. Reading the PMBOK doesn't fully prepare you to pass the PMP exam, let alone function as a project manager in the real world. Understanding how to apply the various methodologies is vital to your success, and this book gives you a wealth of guided practice to hone your skills in advance. Practice applying project management concepts Test your grasp of the PMBOK methodology Preview the PMP with

simulated exam questions Enhance your critical thinking and project management skills The project manager's role is broad in scope and detailed in function. Don't try to memorize the PMBOK, internalize it; this approach gives you a ready body of knowledge available for recall as needed, and helps you become a more efficient, more effective project manager. Instinctive knowledge comes from copious practice, and the Project Management Workbook and PMP/CAPM Exam Study Guide is your ideal resource for developing your skills. PMP / CAPM Exam Preparation Guide Thomas Sheffrey 2005-09-26 Business & Economics/Project Management When you're studying for the PMP®/CAPM® exam, the most important thing to manage is your time This practical guide will help you study for the Project Management Professional (PMP®)/Certified Associate in Project Management (CAPM®) Certification Exam more efficiently and productively. It is aligned with and references PMI's Project Management Body of Knowledge, Third Edition (PMBOK® Guide). Unlike other review materials that are organized according to knowledge areas and cover the forty-four processes almost equally, this guide divides materials into process groups or domains and weights your review materials the way PMP®/CAPM® weights the exam. For example, approximately 11% of the exam questions will be on the Initiation Phase, so approximately 11% of the review materials in this book covers the Initiation Phase. The guide flows like projects flow. There are six sections: Initiation Phase Planning Phase Execution Phase Monitor and Control Phase Closing Phase Professional Responsibility This is not an unabridged "everything you ever need to know about project management" guide. It focuses exclusively on information you need to know to pass the exam and features: A total of 175 pre-review questions and 175 post-review questions, along with complete answers and explanations The facts, presented clearly and concisely with no frills, no fine print, and no digression Terms, definitions, formulas, charts,

diagrams, and lists that help you retain the information and pass the test
Advice on how to study and how to take the actual exam, plus a comprehensive
index, so it's easy to find information you want to review
