International Humanitarian Assistance Peter MacAlister-Smith 1985-03-18 The underlying rationale for the international humanitarian law of war is the protection of individuals & victims of war. This book is a contribution to the study of human rights in general & humanitarian law in particular. It contains detailed information & analysis of the law & practice relating to international armed conflicts involving irregular combatants. The discussion focuses on the most controversial provisions of Additional Protocol I to the Geneva Conventions: the classification of wars of national liberation, the treatment of guerrillas & mercenaries upon capture, reprisals, & the question of supervision & implementation in such conflicts. The manuscript on which this book was based was awarded the 1991 Paul Reuter Prize by the International Committee of the Red Cross.

Liber Amicorum Marius Paul Olivier 2020-12-10 Though some may categorise this work as a memorial publication, this book of friends is truly a celebratory publication by colleagues from Africa and beyond who had the privilege to know Edwell and Mathias personally. It is a tribute to the life and work of two individuals that each made a unique contribution to social justice, law and its development. As evidenced by the Tributes and Lists of Publications contained herein, both Edwell and Nyenti (as they were colloquially known) were productive scholars but they leave a legacy that extends beyond the academic realm to that of friendship and shared humanity.

The Consequences of Chaos Elizabeth G. Ferris 2016-04-05 The massive dimensions of Syria's refugee crisis—and the search for solutions The civil war in Syria has forced some 10 million people—more than half the country's population—from their homes and communities, creating one of the largest human displacements since the end of World War II. Daily headlines testify to their plight, both within Syria and in the countries to which they have fled. The Consequences of Chaos looks beyond the ever-increasing numbers of Syria's uprooted to consider the long-term economic, political, and social implications of this massive movement of people. Neighboring countries hosting thousands or even millions of refugees, Western governments called upon to provide financial assistance and even new homes for the refugees, regional and international organizations struggling to cope with the demands for food and shelter—all have found the Syria crisis to be overwhelming in its challenges. And the challenges of finding solutions for those displaced by the conflict are likely to continue for years, perhaps even for decades. The Syrian displacement crisis raises fundamental questions about the relationship between action to resolve conflicts and humanitarian aid to assist the victims and demonstrates the limits of humanitarian response, even on a massive scale, to resolve political crises. The increasingly protracted nature of the crisis also raises the need for the international community to think beyond just relief assistance and adopt developmental policies to help refugees become productive members of their host communities.

Transforming Settlement in Southern Africa de Wet Chris de Wet 2020-03-31 This volume examines the ways in which changing political and economic processes impact upon patterns of population movement and settlement. It focuses on the southern African region as it has moved from the experiments of the early independence era, through civil war and refugee flight, into the current era characterised by globalization and the demise of apartheid. Focused case studies from across the region deal with specific aspects of these transformations and their policy implications.

Social Protection in Developing Countries Katja Bender 2013-09-02 Providing universal access to social protection and health systems for all members of society, including the poor and vulnerable, is increasingly considered crucial to international development debates. This is the first book to explore from an interdisciplinary and global perspective the reforms of social protection systems introduced in recent years by many governments of low and middle-income countries. Although a growing body of literature has been concerned with the design and impact of social protection, less attention has been directed towards analyzing and explaining these reform processes themselves. Through case studies of African, Asian, and Latin American countries, this book examines the 'global phenomenon' of recent social protection reforms in low and middle-income areas, and how it differs across countries both in terms of scope and speed of institutional change. Exploring the major domestic and international factors affecting the political feasibility of social protection reform, the book outlines the successes and failures of recent reform initiatives. This invaluable book combines contributions from both academics and practitioner experts to give students, researchers and practitioners in the fields of social security, economics, law and political science an in-depth understanding of political reform processes in developing countries.

In a Sea of Bitterness R. Keith Schoppa 2011-12-12 The Japanese invasion of Shanghai in 1937 led 30 million Chinese to flee their homes in terror, and live—in the words of artist and writer Feng Zikai—"in a sea of bitterness" as refugees. Keith Schoppa paints a comprehensive picture of the refugee experience in one province, Zhejiang, where the Japanese launched notorious campaigns.

Advancing Refugee Protection in South Africa Jeff Handmaker 2008 Divided into three thematic parts to guide the reader, this important volume documents the development and implementation of refugee policy in South Africa over a 10-year period from 1996 until 2006. In doing so, it addresses issues of detention, gender, children and health as well as welfare policies for refugees. The contributions, all written by academics and practitioners of refugee protection, vividly illustrate the tangible shifts and concerns of a process that is not only aimed at establishing policies and legislation but also practices concerning refugees.

Refugee Aid and Development Robert F. Gorman 1993 How should refugee aid and development enterprises be linked in order truly to help the 16 million refugees today, the tens of millions of displaced persons, and the hundreds of millions affected by the presence of uprooted people?
