Peter Lilienthal Claudia Sandberg 2021-07-16 Best known for his 1979 film David, Peter Lilienthal was an unusual figure within postwar filmmaking circles. A child refugee from Nazi Germany who grew up in Uruguay, he was uniquely situated at the crossroads of German, Jewish, and Latin American cultures: while his work emerged from West German auteur filmmaking, his films bore the unmistakable imprints of Jewish thought and the militant character of New Latin American cinema. Peter Lilienthal is the first comprehensive study of Lilienthal's life and career, highlighting the distinctively cross-cultural and transnational dimensions of his oeuvre, and exploring his role as an early exemplar of a more vibrant, inclusive European film culture.

Fidel between the Lines Laura-Zoë Humphreys 2019-10-25 In Fidel between the Lines Laura-Zoë Humphreys traces the changing dynamics of criticism and censorship in late socialist Cuba

through a focus on cinema. Following the collapse of the Soviet Union, the Cuban state strategically relaxed censorship, attempting to contain dissent by giving it an outlet in the arts. Along with this shift, foreign funding and digital technologies gave filmmakers more freedom to criticize the state than ever before, yet these openings also exacerbated the political paranoia that has long shaped the Cuban public sphere. Drawing on ethnographic fieldwork, textual analysis, and archival research, Humphreys shows how Cuban filmmakers have historically turned to allegory to communicate an ambivalent relationship to the Revolution, and how such efforts came up against new forms of suspicion in the 1990s and the twenty-first century. Offering insights that extend beyond Cuba, Humphreys reveals what happens to public debate when freedom of expression can no longer be distinguished from complicity while demonstrating the ways in which combining anthropology with film studies can shed light on cinema's broader social and political import.

Trafficking Hector Amaya 2020-05-22 In Trafficking Hector Amaya examines how the dramatic escalation of drug violence in Mexico in 2008 prompted new forms of participation in public culture in Mexico and the United States. He contends that, by becoming a site of national and transnational debate about the role of the state, this violence altered the modes publicness could take, transforming assumptions about freedom of expression and the rules of public participation. Amaya examines the practices of narcocorrido musicians who take advantage of digital production and distribution technologies to escape Mexican censors and to share music across the US-Mexico border, as well as anonymous bloggers whose coverage of trafficking and violence from a place of relative safety made them public heroes. These new forms of being in the public sphere, Amaya demonstrates, evolved to exceed the bounds of the state and traditional media sources, signaling the inadequacy of democratic theories of freedom and publicness to understand how violence shapes public discourse.

After Capitalism Kennan Ferguson 2016-07-05 From Thomas Piketty to David Harvey, scholars are increasingly questioning whether we are entering into a post-capitalist era. If so, does this new epoch signal the failure of capitalism and emergence of alternative systems? Or does it mark the ultimate triumph of capitalism as it evolves into an unstoppable entity that takes new forms as it engulfs its opposition? After Capitalism brings together leading scholars from across the academy to offer competing perspectives on capitalism's past incarnations, present conditions, and possible futures. Some contributors reassess classic theorizations of capitalism in light of recent trends, including real estate bubbles, debt relief protests, and the rise of a global creditocracy. Others examine Marx's writings, unemployment, hoarding, "capitalist realism," and coyote (trickster) capitalism, among many other topics. Media and design trends locate the key ideologies of the current economic moment, with authors considering everything from the austerity aesthetics of reality TV to the seductive smoothness of liquid crystal. Even as it draws momentous conclusions about global economic phenomena, After Capitalism also pays close attention to locales as varied as Cuba, India, and Latvia, examining the very different ways that economic conditions have affected the relationship between the state and its citizens. Collectively, these essays raise provocative questions about how we should imagine capitalism in the twenty-first century. Will capitalism, like all economic systems, come to an end, or does there exist in history or elsewhere a hidden world that is already post-capitalist, offering alternative possibilities for thought and action?

The Cinema of Sara Gómez Susan Lord 2021-07-06 Throughout the 1960s until her untimely death in 1974, Afro-Cuban filmmaker Sara Gómez engaged directly and courageously with the social, political, economic, and cultural transformations promised by the Cuban Revolution. Gómez

directed numerous documentary films in 10 prolific years. She also made De cierta manera (One way or another), her only feature-length film. Her films navigate complex experiences of social class, race, and gender by reframing revolutionary citizenship, cultural memory, and political value. Not only have her inventive strategies become foundational to new Cuban cinema and feminist film culture, but they also continue to inspire media artists today who deal with issues of identity and difference. The Cinema of Sara Gómez assembles history, criticism, biography, methodology, and theory of Gómez's work in scholarly writing; interviews with friends and collaborators; the film script of De cierta manera; and a detailed and complete filmography. Featuring striking images, this anthology reorients how we tell Cuban cinema history and how we think about the intersections of race, gender, and revolution. By addressing Gómez's entire body of work, The Cinema of Sara Gómez unpacks her complex life and gives weight to her groundbreaking cinema.

Cuban Film Media, Late Socialism, and the Public Sphere Nicholas Balais 2016-12-07 This book maps the aesthetic experience of late socialism through Cuban film and media practice. It shows how economic and material scarcity as well as political uncertainty is expressed aesthetically in films from the period following the collapse of the Soviet Union, a characteristic described as imperfect aesthetics. The films examined in the book draw attention to the unique temporal experience of late socialism, a period marked both by rapid change and frustrating stasis, nostalgia for Cuba's past and anxiousness about its future. Aesthetic modes such as melodrama and irony, and stylistic elements such as direct address and the long take, communicate the temporal experience of late socialism in Cuba, where new global traffic and a globalizing economy co-exist with iconic socialist features of the Cuban revolution. Film aesthetics constitute an important public dimension within this context, serving as a site of political and cultural critique amidst political uncertainty. In examining large-scale international co-productions as well as regional film collectives and amateur media making, the book traces the aesthetic continuities between contemporary film practices and those of the immediate post-revolutionary period, showing how the Cuban revolution continues to be an important touchstone for contemporary Cuban filmmakers in the face of new and imminent change.

Citizenship Excess Hector Amaya 2013-05-06 "Drawing on the Athenian tradition of 'wielding citizenship as a weapon to defend a contingently defined polis,' Hector Amaya has crafted an elegant and sophisticated analysis of the contemporary policies designed to contain and criminalize Latina/os. *Citizenship Excess* demonstrates that he is one of the leading Latina/o Media Scholars today." —Angharad N. Valdivia, General Editor of the *International Encyclopedia of Media Studies* and author of *Latina/os Drawing on contemporary conflicts between Latino/as and anti-immigrant forces, Citizenship Excess illustrates the limitations of liberalism as expressed through U.S. media channels. Inspired by Latin American critical scholarship on the "coloniality of power," Amaya demonstrates that nativists use the privileges associated with citizenship to accumulate power. That power is deployed to aggressively shape politics, culture, and the law, effectively undermining Latino/as who are marked by the ethno-racial and linguistic difference that nativists love to hate. Yet these social characteristics present crucial challenges to the political, legal, and cultural practices that define citizenship. Amaya examines the role of ethnicity and language in shaping the mediated public sphere through cases ranging from the participation of Latino/as in the Iraqi war and pro-immigration reform marches to labor laws restricting Latino/a participation in English-language media and news coverage of undocumented immigrant detention centers. Citizenship Excess demonstrates that the evolution of the idea of citizenship in the United States and the political and cultural practices that define it are intricately intertwined with nativism.*

Hollywood in Havana Megan Feeney 2019-01-11 From the turn of the twentieth century through the late 1950s, Havana was a locus for American movie stars, with glamorous visitors including Errol Flynn, John Wayne, and Marlon Brando. In fact, Hollywood was seemingly everywhere in pre-

Castro Havana, with movie theaters three to a block in places, widely circulated silver screen fanzines, and terms like “cowboy” and “gangster” entering Cuban vernacular speech. Hollywood in Havana uses this historical backdrop as the catalyst for a startling question: Did exposure to half a century of Hollywood pave the way for the Cuban Revolution of 1959? Megan Feeney argues that the freedom fighting extolled in American World War II dramas and the rebellious values and behaviors seen in postwar film noir helped condition Cuban audiences to expect and even demand purer forms of Cuban democracy and national sovereignty. At the same time, influential Cuban intellectuals worked to translate Hollywood ethics into revolutionary rhetoric—which, ironically, led to pointed critiques and subversions of the US presence in Cuba. Hollywood in Havana not only expands our notions of how American cinema was internalized around the world—it also broadens our view of the ongoing history of US-Cuban interactions, both cultural and political.

Post-Revolution Nonfiction Film Joshua Malitsky 2013-03-20 In the charged atmosphere of post-revolution, artistic and political forces often join in the effort to reimagine a new national space for a liberated people. Joshua Malitsky examines nonfiction film and nation building to better understand documentary film as a tool used by the state to create powerful historical and political narratives. Drawing on newsreels and documentaries produced in the aftermath of the Russian revolution of 1917 and the Cuban revolution of 1959, Malitsky demonstrates the ability of nonfiction film to help shape the new citizen and unify, edify, and modernize society as a whole. Post-Revolution Nonfiction Film not only presents a critical historical view of the politics, rhetoric, and aesthetics shaping post-revolution Soviet and Cuban culture but also provides a framework for understanding the larger political and cultural implications of documentary and nonfiction film.

Gender-Based Violence in Latin American and Iberian Cinemas Rebeca Maseda García 2020-06-03 Gender-Based Violence in Latin American and Iberian Cinemas rethinks the intersection between violence and its gendered representation. This is a groundbreaking contribution to the international debate on the cinematic construction of gender-based violence. With essays from diverse cultural backgrounds and institutions, this collection analyzes a wide range of films across Latin America and the Iberian Peninsula. The volume makes use of varied perspectives including feminist, postcolonial, and queer theory to consider such issues as the visual configuration of power and inequality, the objectification and the invisibilization of women's and LGBTQ subjects' resistance, the role of female film-makers in transforming hegemonic accounts of violence, and the subversion of common tropes of gendered violence. This will be of significance for students and scholars in Latin American and Iberian studies, as well as in film studies, cultural studies, and gender and queer studies.

Film Studies Intellect Books 2013 Increasingly, academic communities transcend national

boundaries. "Collaboration between researchers across space is clearly increasing, as well as being increasingly sought after," noted the online magazine Inside Higher Ed in a recent article about research in the social sciences and humanities. Even for those scholars who don't work directly with international colleagues, staying up-to-date and relevant requires keeping up with international currents of thought in one's field. But when one's colleagues span the globe, it's not always easy to keep track of who's who—or what kind of research they're conducting. That's where Intellect's new series comes in. A set of worldwide guides to leading academics—and their work—across the arts and humanities, Who's Who in Research features comprehensive profiles of scholars in the areas of cultural studies, film studies, media studies, performing arts, and visual arts. Who's Who in Research: Film Studies includes concise yet detailed listings include each academic's name, institution, biography, and current research interests, as well as bibliographic information and a list of articles published in Intellect journals. The volumes in the Who's Who in Research series will be updated each year, providing the most current information on the foremost thinkers in academia and making them an invaluable resource for scholars, hiring committees, academic libraries, and would-be collaborators across the arts and humanities.

Cuban Cinema After the Cold War Enrique García 2015-04-17 The changes Cuba experienced following the collapse of the Soviet Union compelled Cuban filmmakers to rethink the values developed after the 1959 Castro revolution. Long-forgotten genres re-emerged, established auteurs incorporated new aesthetics into their films and an influx of foreign capital led to the repackaging of revolutionary ideology into more visually attractive narratives. Films such as Alice in Wondertown (1991), Strawberry and Chocolate (1993) and Juan of the Dead (2011) stirred controversy, criticized revolutionary discourse and helped establish new models that allowed post-Castro cinema to find global audiences on an unprecedented scale. This book offers a detailed analysis of key post-Cold War Cuban films. Recurrent sociopolitical tropes are examined to reveal how Cuban cinema reflects the turbulent changes in the island.

How To Watch Television Ethan Thompson 2013-09-16 Examines social and cultural phenomena through the lens of different television shows We all have opinions about the television shows we watch, but television criticism is about much more than simply evaluating the merits of a particular show and deeming it 'good' or 'bad.' Rather, criticism uses the close examination of a television program to explore that program's cultural significance, creative strategies, and its place in a broader social context. How to Watch Television brings together forty original essays from today's leading scholars on television culture, writing about the programs they care (and think) the most about. Each essay focuses on a particular television show, demonstrating one way to read the program and, through it, our media culture. The essays model how to practice media

criticism in accessible language, providing critical insights through analysis—suggesting a way of looking at TV that students and interested viewers might emulate. The contributors discuss a wide range of television programs past and present, covering many formats and genres, spanning fiction and non-fiction, broadcast and cable, providing a broad representation of the programs that are likely to be covered in a media studies course. While the book primarily focuses on American television, important programs with international origins and transnational circulation are also covered. Addressing television series from the medium's earliest days to contemporary online transformations of television, *How to Watch Television* is designed to engender classroom discussion among television critics of all backgrounds.

Screening Cuba Hector Amaya 2010-09-09 Hector Amaya advances into new territory in Latin American and U.S. cinema studies in this innovative analysis of the differing critical receptions of Cuban film in Cuba and the United States during the Cold War. Synthesizing film reviews, magazine articles, and other primary documents, *Screening Cuba* compares Cuban and U.S. reactions to four Cuban films: *Memories of Underdevelopment*, *Lucia*, *One Way or Another*, and *Portrait of Teresa*. In examining cultural production through the lens of the Cold War, Amaya reveals how contrasting interpretations of Cuban and U.S. critics are the result of the political cultures in which they operated. While Cuban critics viewed the films as powerful symbols of the social promises of the Cuban revolution, liberal and leftist American critics found meaning in the films as representations of anti-establishment progressive values and Cold War discourses. By contrasting the hermeneutics of Cuban and U.S. culture, criticism, and citizenship, Amaya argues that critical receptions of political films constitute a kind of civic public behavior.

Ein zentraler Aspekt des interkulturellen Austauschs der DDR wird damit erstmals grundlegend aufgearbeitet.
