Heer der planten Carlos Magdalena 2017-09-19 In Heer der planten ontmoeten we Carlos Magdalena, een man met een missie. Hij wil zoveel mogelijk zeldzame en bedreigde plantensoorten van de ondergang redden en ze uit de klauwen van dieven houden die in opdracht van rijke verzamelaars opereren. Hij reist af naar de meest afgelegen en gevaarlijke gebieden te wereld - van het hooggebergte van Peru en de geïsoleerde Mascarenen in de Indische Oceaan naar de outback van Australië - om stekken te nemen voor de kweekkassen in Kew Gardens, waar hij ze met ingenieuze bestuivings- en propagatietechnieken laat floreren. Van de Nymphaea thermarum, 's werelds kleinste waterlelie, tot de bedreigde Ramosmania rodriguesii, Carlos Magdalena is befaamd om zijn vermogen deze betoverende en delicate planten weer tot leven te wekken en ze voor uitsterven te behoeden. Heer der planten is een inspirerend verhaal van een man die er werkelijk alles aan doet om zijn geliefde planten te behouden en beschermen. Hij laat ons kennismaken met het belang van onze botanische tuinen, met de noodzaak van wetenschappelijk onderzoek, maar bovenal met de pracht en bijzonderheden van ons kwetsbare plantenrijk.

Storey's Guide to Raising Ducks, 2nd Edition Dave Holderread 2011-01-19 Covering everything from breeding to butchering, Dave Holderread provides all the information you need to know to successfully raise your own ducks.

Hardlopen met Sherman Christopher McDougall 2020-03-02 Toen Christopher McDougall een ezel adopteerde, dacht hij dat het dier in een veld zou staan, er schattig uit zou zien en wortels zou eten. Maar Sherman was doordat hij werd verwaarloosd in zo'n slechte staat dat hij amper kon bewegen. Hij was bovendien slechtgehumeurd en obstinaat. Om niet alleen fysiek, maar ook mentaal te genezen, geeft Chris hen op voor een Burro Race, een uniek soort race waarin mensen en ezels samen over bergen en door beken rennen. Wat Sherman er aan vrouwen en zingeving mee wint, is iets wat ieder mens goed doet: meer natuur, meer buitenlucht en meer beweging.

Backyard Livestock: Raising Good, Natural Food for Your Family (Fourth Edition) (Countryman Know How) George B. Looby 2017-06-13 A new edition of the essential guide to animal husbandry Have you ever celebrated Thanksgiving with a turkey from a local farm, instead of a packaged, frozen supermarket bird? Ever cracked a farm-fresh egg into the skillet next to a store-bought one? The difference in quality can't be overstated. Small-scale livestock farming not only brings better, safer, and more delicious food to your table, but it can do so economically. Long the primary reference for anyone who keeps animals as a sustainable food source, this latest edition comes with a beautiful new design and includes up-to-date information on breeding, feeding, disease prevention, housing, and management. Complete with clarifying diagrams, full color photography, and a catalog of supplemental reading, Backyard Livestock continues to be the best resource for those who wish to sustainably and ethically raise their own farm-fresh food.

Storey's Guide to Raising Poultry, 4th Edition Glenn Drowns 2012-05-22 Whether you're running a farm or interested in keeping a few backyard birds, Storey's Guide to Raising Poultry covers everything you need to know to successfully raise your own chickens, turkeys, waterfowl, and more. Stressing humane practices throughout, Glenn Drowns provides expert advice on breed selection, housing, feeding, behavior, breeding, health care, and processing your own meat and eggs. With tips on raising specialty species like doves, ostriches, and peafowl, you'll be inspired to experiment with new breeds and add diversity to your poultry operation.

City Creatures Gavin Van Horn 2015-11-03 Read about Ten Years of City Creatures at the Center for Humans and Nature We usually think of cities as the domain of humans—but we are just one of thousands of species that call the urban landscape home. Chicago residents knowingly move among familiar creatures like squirrels, pigeons, and dogs, but might be surprised to learn about all the leafhoppers and water bears, black-crowned night herons and bison, beavers and massasauga rattlesnakes that are living alongside them. City Creatures introduces readers to an astonishing diversity of urban wildlife with a unique and accessible mix of essays, poetry, paintings, and photographs. The contributors bring a story-based approach to this urban safari, taking readers on birding expeditions to the Magic Hedge at Montrose Harbor on the North Side, canoe trips down the South Fork of the Chicago River (better known as Bubby Creek), and insect-collecting forays or restoration work days in the suburban forest preserves. The book is organized into six sections, each highlighting one type of place in which people might encounter animals in the city and suburbs. For example, schoolyard chickens and warrior wasps populate "Backyard Diversity," live giraffes loom at the zoo and taxidermy-in-progress pheasants fascinate museum-goers in "Animals on Display," and a chorus of deep-freeze frogs awaits in "Water Worlds." Although the book is rooted in Chicago's landscape, nature lovers from cities around the globe will find a wealth of urban animal encounters that will open their senses to a new world that has been there all along. Its powerful combination of insightful narratives, numinous poetry, and full-color art throughout will help readers see the city—and the creatures who share it with us—in an entirely new light.

Standard Catalog for High School Libraries 1947 The 1st ed. accompanied by a list of Library of Congress card numbers for books (except fiction, pamphlets, etc.) which are included in the 1st ed. and its supplement, 1926/29.

Enough! A Critique of Capitalist Democracy and a Guide to Understanding the New Normal Jerome D. Belanger 2012-06-01 At one time the American Dream offered hope and opportunity to millions of people. Today, for many young people who are saddled with debt and are un- or underemployed, elderly people whose nest eggs have been shattered by the Great Recession, and many in-between who are uneasy about their future, the American Dream is badly tarnished; in some cases it's dead. What happened? And what can we expect in the future? This eclectic, readable, often amusing analysis of those questions explores the American Dream and the New Normal by examining capitalist democracy through history, science, economics, education, health issues, philosophy... and organic gardening and sugar "subsidies," among other topics.

Capitalism creates and fulfills wants and desires far in excess of actual needs because it depends on constant and infinite growth. But infinite growth is impossible on a finite planet! Something has to give. The cozy relationship between capitalism and democracy - both of which are located on a sliding scale - makes this even more complex, and interesting. With this book JD Belanger, long typecast as a writer on homesteading and organic gardening, breaks out of that mold to let loose a barrage of ideas and observations built up during more than 50 years of writing and editing. From the history of plastic shopping bags to the future of global warming, from the shortcomings of conventional agricultural accounting to the industrialization of food, this book entertains and informs while arguing the case for living happily and productively with just "enough."

Katten voor Dummies Gina Spadafori 2009 Praktische informatie over voeding en verzorging.

Storey's Guide to Raising Chickens, 4th Edition Gail Damerow 2017-12-26 Serious poultry farmers and backyard bird raisers have relied on this best-selling reference for more than 20 years. The fourth edition of Gail Damerow's comprehensive handbook is now completely revised and redesigned, making it more accessible and informative than ever. You'll get the most up-to-date details on shelter, food, health care, eggs, chicks, and meat, and recent research into chicken behavior and communication makes the sections on flock management truly authoritative. New color photos and illustrations provide more specificity and information about chicken breeds, anatomy, and health.

De ravenmeester Christopher Skaife 2018-10-24 De raven van de Tower of London mogen nooit verdwijnen Een van de vele legendes over de raven zegt dat als er niet minstens zes raven binnen de Tower wonen, de Tower en de monarchie zullen vallen. Maar raven zijn intelligente vogels, die zich niet laten niet dwingen. Ze moeten het zo prettig hebben, dat ze willen blijven. Christopher Skaife is een van de 37 Yeoman Warders van de Tower of London. Hij is als enige de Ravenmeester. Het is zijn taak om te zorgen dat de raven het naar hun zin hebben, en dat is een dagtaak. Ze worden gevoed met noten, bessen, ratten, kippen en in bloed gedrenkte biscuitjes. Skaife aait ze over hun snavel, krabbelt ze in hun nekveren en praat met ze. Iedere avond fluit hij een speciale melodie die de raven zegt dat het bedtijd is. Ze vliegen naar de ruime kooien waarin ze de nacht doorbrengen, beschermd tegen roofdieren zoals vossen. De ravenmeester getuigt van de innige en inspirerende vriendschap tussen de raven en hun meester. Skaife vertelt over het gedrag van de vogels, de pikorde, hun kuren en de trucjes die ze met je uithalen. Het resultaat is een meeslepend verhaal dat je zal verrassen en betoveren, en dat laat zien wie de echte bewakers zijn van de Tower.

PHP & MySQL voor Dummies Janet Valade 2004

Storey's Guide to Raising Horses, 2nd Edition Heather Smith Thomas 2010-01-27 Raising horses successfully requires good preparation, hard work, and a sincere interest in your animals' well-being. Het geheime leven van de koe Rosamund Young 2017-10-24 Het geheime leven van de koe van Rosamund Young is een hartverwarmend kijkje achter de schermen van een traditionele boerderij, en een pleidooi voor een bewustere omgang met de dieren die ons van vlees en zuivel voorzien. Op haar biologische Kite's Nest Farm in Cotswolds mogen de koeien (en varkens, kippen en schapen) gaan en staan waar ze willen. Bij hun kalf blijven, of deze aan oma toevertrouwen? In de wei grazen, of boven aan de heuvel? Naar de schuur hollen bij regen, of gewoon onder de heg schuilen? Decennialang heeft Young haar dieren uitgebreid kunnen observeren en ze constateert dat deze consequent slimme keuzes maken die hun welzijn verhogen. Aan de hand van de meest aandoenlijke anekdotes over haar kudde laat ze zien dat het intelligente beesten zijn die elkaar liefhebben, samen spelen en levenslange vriendschappen sluiten. Maar door het moderne, grootschalige boerenbedrijf hebben we steeds minder oog voor dit natuurlijke gedrag. 'Door dit boek ga je anders naar de wereld kijken. Alle boeren zouden het moeten lezen.' - Alan Bennett 'Meeslepend, ontroerend en niet weg te leggen.' - Lydia Davis 'Ze kijkt als een soort Jane Goodall naar een diersoort die met uitsterven wordt bedreigd: de scharrelkoe.' - The Daily Telegraph

Hatching & Brooding Your Own Chicks Gail Damerow 2013-04-12 Chicken expert Gail Damerow teaches readers how to raise all types of poultry chicks, and also explains what it takes to go to the next level and hatch them at home.

Ik daag jou uit William Danforth 2016-01-12 'Ik daag jou uit' is voor de weinige durvers die echt iets willen bereiken. Zij die bang zijn om iets te durven kunnen net zo goed verder gaan. Het zal de luie mensen moe maken, omdat het vraagt om onmiddellijke actie. Het zal de verfinde mensen vervelen en de sceptici vermaken. Het zal anderen irriteren. Sommigen zullen nooit weten waar het allemaal over gaat. Het zal niet erg populair worden, omdat het vraagt om moed, snelheid en durf. Maar in de ogen van jou, een van de weinigen, zal een glans van strijdlust komen als jij dit boek leest. Jij kunt een groter persoon zijn dan jij nu bent, en ik ga het jou bewijzen. William H. Danforth heeft Ralston-Purina in St. Louis, Missouri opgericht in 1894. Hij is de medeoprichter van de American Youth Foundation (AYF) die jonge mannen en vrouwen traint in de christelijke idealen en hen wil voorbereiden op een leven van verantwoordelijkheid en leiderschap.
