**Agritourism, Wine Tourism, and Craft Beer Tourism** Maria Giulia Pezzi 2020-07-23 This book delves into the development opportunities for peripheral areas explored through the emerging practices of agritourism, wine tourism, and craft beer tourism. It celebrates the entrepreneurial spirit of people living in peri-urban regions. Peripheral areas tend to be far from urban hubs, providing essential services but also typically suffering from marginalisation and remoteness, despite the access to environmental, cultural, and social resources. In this sense, this book investigates the linkages between local agency and tourism in peripheral areas, the role of existing policies, and the evolving bottom-up practices in fostering local development. The basic aim is to disestablish the dichotomies that often emerge when dealing with issues of rural–urban and/or centre–periphery relationships; innovation vs tradition; authenticity vs *mise en scène*; agency vs inertia; and social, cultural, economic mobility vs immobility; etc. With focused attention on the possible compliance or conflicting strategies of local actors with the existing policies, the book considers how local actors and communities respond to the implications of peripherality in areas often impacted by marginalising processes. Drawing upon case studies from North America and Europe, this book presents this connection as a global phenomenon which will be of interest to community and economic development planners and entrepreneurs.

Topic sections on key research studies, as well as applied aspects such as human resources applications and cross-cultural issues, lead the reader through the complexities of the theory to its practical application. *The Psychology of Behaviour at Work* covers all major topics in the field, from vocational choice, personality, attitudes, motivation and stress, to cooperation, learning, training, group dynamics, decision making and leadership. Further sections introduce corporate culture and climate, as well as organisational structure, change and development, and a final section outlines predictions not only for the future study of organizational psychology, but of the future of work itself. **Sport and the Social Significance of Pleasure** Richard Pringle 2015-06-05 This innovative text's critical examination foregrounds the prime reason why so many people participate in or watch sport – pleasure. Although there has been a "turn" to emotions and affect within academia over the last two decades, it has been somewhat remiss that pleasure, as an integral aspect of human life, has not received greater attention from sociologists of sport, exercise and physical education. This book addresses this issue via an unabashed examination of sport and the moving body via a "pleasure lens." It provides new insights about the production of various identities, power relations and social issues, and the dialectical links between the socio-cultural and the body. Taking a wide-sweeping view of pleasure - dignified and debauched, distinguished and mundane – it examines topics as diverse as aging, health, fandom, running, extreme sports, biopolitics, consumerism, feminism, sex and sexuality. In drawing from diverse theoretical approaches and original empirical research, the text reveals the social and political significance of pleasure and provides a more rounded, dynamic and sensual account of sport.

**The Encampment** Stephen Davenport 2020-06-09 Honored by Kirkus Reviews as one of The Best Indie Books of 2020. "Davenport is an accomplished stylist with a keen ear for nuanced dialogue; he also has a knack for making serious political points with a light

touch that makes them broadly accessible. . . A thoughtful and compelling account of the responsibilities that come with privilege." --Kirkus Reviews, Starred Review There are only two rules at Miss Oliver's School for Girls that lead to automatic expulsion: stealing, and permitting a male who is not a family member into a dormitory. The head of school's daughter has broken both. Trouble approaches on a warm September day when Sylvia Perrine Bickham, the head of school's daughter, gives money to a homeless man on the street. Through some prying, she and her friends learn he is a veteran of the Iraq War and probably suffering from post-traumatic stress, so they sneak food and clothing to his lean-to at odd hours of the day and agree to tell no one—not the teachers, and especially not Sylvia's mother, Rachel. But talk of things gone missing from the school is getting louder, and Rachel knows something is up. More importantly, winter is coming and Sylvia worries the man will freeze if he stays outside. Have they done all they can for him? Have they done enough? What is enough. Vivid, riveting, and utterly engrossing, *The Encampment* is the third installment of the *Miss Oliver's School for Girls* series.
