**Greek Rebetiko from a Psychocultural Perspective** Daniel Koglin 2017-07-05 *Greek Rebetiko from a Psychocultural Perspective: Same Songs Changing Minds* examines the ways in which audiences in present-day Greece and Turkey perceive and use the Greek popular song genre rebetiko to cultivate specific cultural habits and identities. In the past, rebetiko has been associated chiefly with the lower strata of Greek society. But Daniel Koglin approaches the subject from a different perspective, exploring the mythological and ritual aspects of rebetiko, which intellectual elites on both sides of the Aegean Sea have adapted to their own world views in our age of globalized consumption. Combining qualitative and quantitative methods from ethnomusicology, ritual studies, conceptual history and music psychology, Koglin casts light on the role played by national perceptions in the processes of music production and consumption. His analysis reveals that rebetiko persistently oscillates between conceptual categories: it is a music both ours and theirs, marginal and mainstream, joyful and grievous, sacred and profane. The study culminates in the thesis that this semantic multistability is not only a key concept to understanding the ongoing popularity of rebetiko in Greece, and its recent renaissance in Turkey, but also a fundamental aspect of the human experience on the south-eastern borders of Europe.

**Words with Music** Lehman Engel 2006 *The dean of Broadway musical directors examines the dynamics of how the book, music and lyrics work together to create such hits as My Fair Lady, Fiddler on the Roof, Guys and Dolls, Hair, Pal Joey, West Side Story, Company, South Pacific, Threepenny Opera and Porgy and Bess.* Howard Kissel, chief theater critic for the New York Daily News, extends the reach of Engel's subjects by bringing them up to date with commentary on such shows as *A Chorus Line, Nine, Sunday in the Park with George, Rent, Working and Falsettos*. Kissel offers a thoughtful history on how musical theater has evolved in the three decades since Engel wrote *Words with Music* (1972) and how Engel's classic work remains vital and illuminating today.

**Greek Music in America** Tina Bucuvalas 2018-11-26 Winner of the 2019 Vasiliki Karagiannaki Prize for the Best Edited Volume in *Modern Greek Studies Contributions* by Tina Bucuvalas, Anna Caraveli, Aydin Chaloupka, Sotirios (Sam) Chianis, Frank Desby, Stavros K. Frangos, Stathis Gauntlett, Joseph G. Graziosi, Gail Holst-Warhaft, Michael G. Kaloyanides, Panayotis League, Roderick Conway Morris, National Endowment for the Arts/National Heritage Fellows, Nick Pappas, Meletios Pouliopoulos, Anthony Shay, David Soffa, Dick Spottswood, Jim Stoyonoff, and Anna Lomax Wood Despite a substantial artistic legacy, there has never been a book devoted to Greek music in America until now. Those seeking to learn about this vibrant and exciting music were forced to seek out individual essays, often published in obscure or ephemeral sources. This volume provides a singular platform for understanding the scope, practice, and development of Greek music in America through essays and profiles written by principal scholars in the field. Greece developed a rich variety of traditional, popular, and art music that diasporic Greeks brought with them to America. In Greek American communities, music was and continues to be an essential component of most social activities. Music links the past to the present, the distant to the near, and bonds the community with an embrace of memories and narrative. From 1896 to 1942, more than a thousand Greek recordings in many genres were made in the United States, and thousands more have appeared since then. These encompass not only Greek traditional music from all regions, but also emerging urban genres, stylistic changes, and new songs of social commentary. *Greek Music in America* includes essays on all of these topics as well as history and genre, places and venues, the recording business, and profiles of individual musicians. This book is required reading for anyone who cares about Greek music in America, whether scholar, fan, or performer.

**Me Elton John** 2019-10-15 *INSTANT #1 NEW YORK TIMES BESTSELLER* In his first and only official autobiography, music icon Elton John reveals the truth about his extraordinary life, from his rollercoaster lifestyle as shown in the film *Rocketman*, to becoming a living legend. Christened Reginald Dwight, he was a shy boy with Buddy Holly glasses who grew up in the London suburb of Pinner and dreamed of becoming a pop star. By the age of twenty-three he was performing his first gig in America, facing an astonished audience in his bright yellow dungarees, a star-spangled T-shirt, and boots with wings. Elton John had arrived and the music world would never be the same again. His life has been full of drama, from the early rejection of his work with song-writing partner Bernie Taupin to spinning out of control as a chart-topping superstar; from half-heartedly trying to drown himself in his LA swimming pool to disco-dancing with Princess Diana and Queen Elizabeth; from friendships with John Lennon, Freddie Mercury, and George Michael to setting up his AIDS Foundation to conquering Broadway with *Aida*, *The Lion King*, and *Billy Elliot the Musical*. All the while Elton was hiding a drug addiction that would grip him for over a decade. In *Me*, Elton also writes powerfully about getting clean and changing his life, about finding love with David Furnish and becoming a father. In a voice that is warm, humble, and open, this is Elton on his music and his relationships, his passions and his mistakes. This is a story that will stay with you by a living legend.

**The Encyclopedia of Film Composers** Thomas S. Hischak 2015-04-16 For more than a century, original music has been composed for the cinema. From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition, music has been an integral element of most films. By the late 1930s, movie studios had established music departments, and some of the greatest names in film music emerged during Hollywood's Golden Age, including Alfred Newman, Max Steiner, Dimitri Tiomkin, and Bernard Herrmann. Over the decades, other creators of screen music offered additional memorable scores, and some composers—such as Henry Mancini, Randy Newman, and John Williams—have become household names. *The Encyclopedia of Film Composers* features entries on more than 250 movie composers from around the world. It not only provides facts about these artists but also explains what makes each composer notable and discusses his or her music in detail. Each entry includes Biographical material Important dates Career highlights Analysis of the composer's musical style Complete list of movie credits This book brings recognition to the many men and women who have written music for movies over the past one hundred years. In addition to composers from the United States and Great Britain, artists from dozens of other countries are also represented. A rich resource of movie music history, *The Encyclopedia of Film Composers* will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores.

**Concert Music of the Twentieth Century** Mark A. Radice 2003 *Concert Music of the Twentieth Century* is about "concert music"—music for contemplation rather than for atmosphere. The repertoire discussed in these pages was written by composers with something important to say and with skills to do so. Many of the works discussed tie in with a long-standing, Western European tradition of art music, but an equal voice is given to culturally and ethnically diverse composers active during the past several decades. Radice provides data about the pieces, the composers who wrote them, and the contexts in which they originated. Our understanding and evaluation of music is a dynamic process and one that is subject to change. Music only has meaning within its social contexts, and these are expanding daily. Many non-Western nations have long-standing musical traditions and practices that have entered into the Western mainstream just as Western practices and traditions have influenced the musical cultures of the world to produce new and exciting possibilities for music making. Diversity has been a key element in the selection of topics for discussion, and the examples included here can serve as gateways for other investigations by interested readers. This book is a survey presenting a broad array of representative works. The personalities explored include composers, performers, theorists, teachers, and organizations. In many cases, the information comes directly from composers whom the author has interviewed. The discussions in this book demonstrate that the world of contemporary music is a fascinating one that offers rich rewards to those interested in understanding the vibrant dynamics of concert music.

*Film and Television Scores, 1950-1979* Kristopher Spencer 2009-10-27 Hollywood film scores underwent a supersonic transformation from the 1950s through the 1970s. This genre-by-genre overview of film and television soundtrack music covers a period of tremendous artistic and commercial development in the medium. Film and television composers bypassed the classical tradition favored by earlier screen composers to experiment with jazz, rock, funk and avant-garde styles. This bold approach brought a rich variety to film and television productions that often took on a life of its own through records and CDs. From Bernard Herrmann to Ennio Morricone, the composers of the "Silver Age" changed the way movie music was made, used, and heard. The book contains more than 100 promotional film stills and soundtrack cover art images.

*Dancing Fear and Desire* Stavros Stavrou Karayanni 2006-01-01 Throughout centuries of European colonial domination, the bodies of Middle Eastern dancers, male and female, move sumptuously and seductively across the pages of Western travel journals, evoking desire and derision, admiration and disdain, allure and revulsion. This profound ambivalence forms the axis of an investigation into Middle Eastern dance—an investigation that extends to contemporary belly dance. Stavros Stavrou Karayanni, through historical investigation, theoretical analysis, and personal reflection, explores how Middle Eastern dance actively engages race, sex, and national identity. Close readings of colonial travel narratives, an examination of Oscar Wilde's *Salome*, and analyses of treatises about Greek dance, reveal the intricate ways in which this controversial dance has been shaped by Eurocentric models that define and control identity performance.
